Keynote speaker Noam Chomsky to the Class of 2013: We must defend the global commons against commercialization, environmental catastrophe, and autocratic rule

Another academic year has ended, and 1485 AUB students have earned their bachelor's degrees, in a ceremony held the American University of Beirut Green Field on June 15, 2013. A day earlier, more than 500 students received their graduate degrees, and four prominent individuals from the world of academia, space and technology, film-making, and business were awarded honorary doctorates by the University. >>
