19/11/2010

Meeting Minutes

Attended: Dr. ANTAR

Amani Zalzali

Rima Hajjar

Nareg Oughourlian

Michael Haddad

Ralph Ghazal

Main points discussed:

1- An email should be sent 2 days before each meeting to remind the attending people
2- The minutes to be sent are to be more detailed
3- Dr. Antar provided a caliper for the measurements
4- Michael presented about pumps mentioning the different types and narrowing down his discussion to the required pump.
5- Michael is asked to start planning the pumping system by providing professional engineering drawings
6- Nareg and Ralph presented the PRO E CAD drawings of the different parts
7- A problem in the thickness measurements had to be solved
8- The team headed to the plasma lab in the physics building to set the assembly of the different parts.
9- The CAD drawings are to be continued and the new parts to be drawn.

Future deliverables:
- drawing before Nov. 26 of the whole setup
- Detailed drawing from Mickael about the pumping system and the technical requirements.

Next meeting:

Wednesday 11:00 am
