FOO has emerged as a leading provider of mobile applications by constantly enhancing its expertise and adopting the latest technologies in the rapidly growing mobile space.

OUR MISSION:
Empower mobile users with apps they shall use today and everyday.
FOO’s mobile portfolio clearly reflects the five cornerstones — innovation, creativity, expertise, quality, and performance, our fundamental success drivers in securing an impressive presence in the mobile world.

To access our portfolio, please click on the following link: “www.foo.mobi/portfolio”.
Founded in 2009, we have been working with leading regional clients, providing worldwide projects and gaining multicultural experiences.

AND MANY MORE
GAMES

Your innovative idea for a 2D/3D game can easily become a reality. No matter what material or concept you have in mind, our team of expert artists and developers will collaborate closely with you to ensure the best possible 2D/3D game is developed.

GAMES METHODOLOGY:

- Concept Creation
- Character & Backgrounds Design
- Levels Design
- Games Mechanics
OUR METHODOLOGY

In order to create lasting bonds, we must learn where our audience is headed and how we can meet them there. Insights become opportunities, opportunities become ideas, and ideas are engineered into the consumers’ daily lifestyle through their mobile phones.
