The AUB GRADE center organized an expert consultation meeting on adapting the World Health Organization (WHO) Guidelines

The AUB GRADE center, directed by Dr. Elie Akl, organized an expert consultation meeting on the adaptation of WHO guidelines to the Eastern Mediterranean Region. The two-day meeting took place on AUB campus, on the 30th and 31st of May 2016, and was in collaboration with the Eastern Mediterranean Regional Office (EMRO) of the World Health Organization (WHO).

The expert panel included Drs. Khaled Younis and Fadi El-Jardali from AUB, international experts in guideline development as well as representation from WHO EMRO. It was also an opportunity for junior members and trainees at the AUB GRADE center to participate or observe a high level consultative meeting.

This meeting built on an earlier expert consultation meeting organized by the WHO EMRO in November 2015 in Cairo, Egypt, and in which the AUB GRADE center was represented. It also took advantage of ongoing methodological work at the AUB GRADE center on the topic of guideline adaptation.
