2. Requirements for Admissions

Residents applying to any of the above programs are required to submit:

- An online application form available from November 01, 2016 to November 30, 2016

---

1 Preliminary track is a one year track that doesn’t lead to certification in the specialty. It is designed to provide a clinical training experience that will serve as knowledge and skill base for applicants seeking to continue their training in other specialties that require previous graduate medical education such as such as Dermatology, Ophthalmology, Otolaryngology and Head and Neck Surgery, Radiation Oncology and Plastic Surgery.

Updated on August 5, 2016
- Certification of Identification Form, which will be emailed to the applicant after submission of the online application
- One recent, passport size, colored photograph of the applicant
- A Curriculum Vitae (CV) prepared within three months of the application
- A Personal Statement describing your interest in the specialty and career plans (only if applying to the Psychiatry program)
- A release letter from the program director from residents enrolled in categorical track
- Four recommendation letters from faculty members including the program director’s letter (only if applying to the Dermatology and Otolaryngology and Head and Neck Surgery programs)
- Score reports on steps in the United States Medical Licensure Examination or equivalent of the USMLE Steps 1, 2 Clinical knowledge (if applicable)
- Additional documents will be retrieved from your File at the GME and attached to your application like score of your IFOM CSE, Medical School transcript of records and medical diploma. Some Departments might ask for your Summary of Resident Evaluations Reports and for your consent to get your In-service exam scores at AUBMC.

3. **Acceptance:**

Applicants with competitive scores may be invited for an interview in one or more of the departments of their choice. Acceptance to any of the residency programs is highly competitive. The total number of applicants accepted is determined by the availability of positions.

* **Categorical track leads to certification in the chosen specialty where the length of training depends on the specialty.**

* **Preliminary track is a one year track that doesn’t lead to certification in the specialty. It is designed to provide a clinical training experience that will serve as knowledge and skill base for applicants seeking to continue their training in other specialties that require previous graduate medical education such as Dermatology, Ophthalmology, Otolaryngology and Head and Neck Surgery, Radiation Oncology, and Plastic Surgery.**
