New Graduate Programs

- MS-Biomedical Engineering*
- MS-Energy Studies
- MA-Islamic Studies
- MS-Orthodontology
- MA-Public Policy & International Affairs
- MS-Rural Community Development
- MS-Scholars in Health Research Program (SHARP)
- MA-Transnational American Studies
- Executive Master in Healthcare Leadership (EMHCL)
- PhD-Biomedical Engineering*

* Will start soon accepting Master’s and PhD student applications for enrollment in spring 2015-16

Financial Aid Opportunities

Substantial financial aid opportunities to make higher education accessible to bright and motivated students.

Preparatory Intensive English Courses

Lack of proficiency in English is not a barrier to an AUB education.

Eleven PhD students recognized in the fourth year of the Lebanese National Council for Scientific Research’s inception

By virtue of the agreement, the Lebanese National Council for Scientific Research (CNRS) will support a total of eleven doctoral students at AUB with an annual individual stipend. A ceremony will be jointly held during November 2015 to honor the doctoral students’ recipients of the CNRS-L/AUB Doctoral Scholarship.

About the agreement: click here.

Save the Date! Fourth Annual Open House

Fall 2015-16 New Student Orientation Program for Graduates: the most well-attended program of its kind

Graduate Council (GC) coordinated the Fall 2015-16 New Graduate Student Orientation Program; the evening program consisted of presentations and a reception to help new graduate students get acquainted with graduate and academic life at AUB.

The event continued to reflect the evolution of graduate affairs since GC’s inception as it featured student organizations and AUB units with whom it has collaborated to improve graduate life and academics. Read More

Faculty of Agricultural and Food Sciences Launches Graduate Diploma in Food Security: first interdisciplinary, graduate-level program in MENA

The Diploma in Food Security was established to meet a clear need in the MENA region, which has no graduate level academic programs in food security despite the clear and relevant challenges: The MENA region is scarce in arable land and water, reliant on food imports, and dealing with major conflict and demographic changes that mean millions cannot or do not get the food they need. 2015 Highlight: AUB Launches Interdisciplinary Master’s and PhD Programs in Biomedical Engineering

Biomedical Engineering is a core integrating discipline due to its key role in driving discoveries, and breakthroughs that are shaping the health sector and improving the quality of life of people. AUB is the leading university in the Arab World with world-class Faculty of Engineering and Architecture (FEA) and Faculty of Medicine (FM) located on the same campus. Therefore, it was a natural move to work...
for Graduate Studies at AUB: February 2016

A not-to-be-missed event to familiarize potential candidates with the Master’s and PhD degrees currently offered at AUB as well as the available student scholarships and related application submission process.

**CNRS-AUB Doctoral Scholar Christiane Zoghbi Sharing Graduate Life and Research Experiences at AUB**

**How I got here:** I got my bachelor’s in civil engineering from AUB and my master’s in engineering from MIT. I then worked for an engineering consulting firm in New York City before deciding to pursue my PhD.

**What I’ll remember most about AUB:** I will remember my “thinking bench,” which overlooks the tennis courts. I will also miss the AUB cats who relentlessly tried to steal my lunch.

**Students overcome multiple barriers to attend Faculty of Health Sciences’(FHS) new scholarship-supported graduate training scheme in public health**

AUB in Lebanon is the first to adopt the new TDR-supported graduate scholarship scheme aimed at improving implementation research on infectious diseases related to poverty.

The TDR programme will provide nearly a million dollars to FHS/AUB, allowing it to offer scholarships to 11 graduate students to follow a two-year graduate program in public health. Up to 30 additional students may also benefit from the TDR programme at AUB in the following three years, pending funding availability.
