The Division of Cardiology of the Department of Internal Medicine at the Faculty of Medicine of the American University of Beirut (AU) is actively expanding the scope of its clinical, research and training activities. In line with this vision the division is seeking full-time board-certified cardiologist in interventional cardiology, with emphasis on structural heart diseases. Applicants must be skilled in clinical aspects of the respective field and must have displayed an established academic record of advanced training and skills in performing complex coronary and structural heart interventions.

Candidates are expected to be active participants in the academic cardiology group practice and ultimately within the multidisciplinary Heart and Vascular center of excellence currently under construction. In accordance with the rules of this appointment, the clinical practice will be primarily based at AU medical center, but might also entail participation in its affiliate program at Keserwan Medical Center. Rank, track, and salary are commensurate with qualifications.

Applicants should submit electronically: curriculum vitae, the names and addresses of four references, a summary of accomplishments in the areas of clinical scholarly activities, teaching and research, and their future plans. All requested documents should be sent to Dr. Samir Alam, Division Head at the following e-mail address mailto: salam@aub.edu.lb no later than June 30, 2016.
