

Funding Programs with Specific Deadlines

| Sponsor | Program Name/ URL | Synopsis | Current Deadline Date(s) |
|--|--|--|---|
| Agency for Healthcare Research and Quality | Understanding and Promoting Health Literacy | The sponsors offer support for empirical research on health literacy concepts, theory and interventions as these relate to the U.S. Department of Health and Human Services public health priorities That is outlined in its Healthier US and Healthy People 2010 initiatives. Health literacy is defined as the degree to which individuals have the capacity to obtain, process, and understand basic Health information and services needed to make appropriate health decisions. This program will use the NIH Research Project (R01) award mechanism. | Dec. 24th, 2009; Jan. 1st, 2010. Deadlines for receipt of optional letters of intent are: May 24th, 2009; & Dec. 24th, 2009. Deadlines for receipt of full applications: May 25th, 2009; & Jan. 25th, 2010. Program expires on Jan. 26th, 2010. |
| American Astronomical Society | Small Research Grants | The sponsor is inviting applications for small research grants to cover costs associated with any type of astronomical research. Acceptable expenses include: computing costs, equipment purchase, shipping of equipment, travel to an observatory, travel expenses for students to attend the AAS conference and page charges. Both US and foreign astronomers with a PhD or equivalent may apply. | Nov. 30th, 2009 |
| Arab Science And Technology Foundation (ASTF) | Scientific Grants | ASTF provide grants that aim at enhancing civil R&D activities inside the Arab region towards outputs that contribute to the sustained social and economic development. Based on that, the grant is directed to research in medical, engineering, applied sciences, as well as other sciences of relevant approaches. "Research should have clear focus on the scientific and technological needs of the Arab World. This should be made clear in the research content, team, and the resulting infrastructure and technology." | Letters of Intent Due Date: Apr. 25th, 2009. If invited, full proposal due: Jun. 10, 2009 |
| American Association for the Advancement of Science | Award for Public Understanding of Science and Technology | An award is given to recognize scientists and engineers who make outstanding contributions to the "popularization of science." Types of activities to be considered include: books, magazines and newspaper articles; broadcasting; lecturing; museum presentation and exhibit design; and other public outreach activities, local, national, or international. | Aug. 15, 2009 |
| Biotechnology & Biological Sciences Research Council | New Investigator Scheme | Support is provided for research in the following areas: agri-food; animal sciences; biochemistry and cell biology; biomolecular sciences; engineering and biological systems; genes and developmental biology, and; plant and microbial sciences. The sponsor provides support for new researchers who are within three years of their first permanent appointment. | Oct. 14th, 2009 |

Funding Programs with Specific Deadlines

| | | | |
|--|---|--|---|
| COMSTECH-TWAS | Joint Research Grants | The programme provides support for research projects in earth sciences, engineering sciences, information technology and computer sciences, materials science including nanotechnology, pharmaceutical sciences and renewable energy. | Aug. 31st, 2009 |
| Conversation, Food and Health Foundation, US | Projects Grants | The foundation supports projects that assist in the conservation of natural resources, the production and distribution of food, and the improvement and promotion of health in the developing world. It prefers to support projects addressing under-funded issues and geographic areas. There is no policy concerning a minimum or maximum grant size, however, the average grant is approximately \$15,000, and grants exceeding \$25,000 are rarely awarded. | Concept Applications Jul. 1st, 2009, invited full applications Sep. 1st, 2009 |
| European Commission | Seventh Research Program (FP7) | The objectives of FP7 have been grouped into four categories: Cooperation, Ideas, People and Capacities: Cooperation– Collaborative research – Research support under this program will be provided to international cooperation projects across the European Union and beyond. The program will promote the progress of knowledge and technology, and will address not only the European social, economic, environmental, public health and industrial challenges but also serve and support developing countries. | 2007-2013 |
| Fogarty International Center | Global Research Initiative Program, Behavioral/Social Sciences | The purpose of this initiative is to provide funding opportunities for the increasing pool of foreign social and behavioral scientists, clinical investigators, nurses and other health professionals, with state-of-the-art knowledge of research methods. It is expected that this program will advance critical issues in global health through behavioral and social sciences research upon return of the investigators to their home countries. This program will use the NIH Research Project (R01) award mechanism. | Sep. 21st, 2009 and Aug. 21st, 2009. Applications may be submitted to Grants.gov in response to this announcement. The deadline for receipt of optional letters of intent is Aug. 21st, 2009. The corresponding deadline for receipt of full applications is: Sep. 21st, 2009. This program expires on Sep. 22nd, 2009. |
| Fogarty International Center/NIH/DHHS | Brain Disorders in the Developing World: Research Across the Lifespan (R21) | The sponsors offer support for exploratory/developmental planning grant applications proposing the development of innovative, collaborative research and research training projects, between high income country (HIC) and low- to middle-income country (LMIC) scientists, on brain and other nervous system function and disorders throughout life, relevant to LMICs. | Jul. 21st, 2009; Aug. 21st, 2009; Apr. 14th, 2010; May 14th, 2010; Jul. 23rd, 2010; Aug. 23rd, 2010. |

Funding Programs with Specific Deadlines

| | | | |
|---------------------------------|--|--|---|
| Foundation for the Future | Research Grants Program | Support is provided for projects to scholars undertaking research that is directly related to a better understanding of the factors affecting the quality of life for the long-term future of humanity. subject areas and questions described below: a) How will global changes in birth rates, mortality rates, and reproductive technology affect the Human Genome over the long-term future?; b) What effect will the current global immigration and emigration of populations have on the demography of the planet over the long-term future?; c) What are likely to be the major driving forces/initiatives/issues for humanity through the new millennium?; and d) Are mechanisms of Biological and Cultural evolution in sync with our systems of Governance and Economy? | Preliminary grant application must be received between Jan. 1st and Apr. 30th and formal grant applications are due Aug. 1st. |
| Fyssen Foundation | Research Grants | The aim of the sponsor is to "encourage all forms of scientific inquiry into cognitive mechanisms, including thought and reasoning, which underlie animal and human behavior; their biological and cultural bases, and phylogenetic and ontogenetic development". It supports research in ethology, psychology, neurobiology, anthropology, ethnology, human paleontology and archaeologie. Priority will be given to researchers who will develop their project in a different laboratory from the one they received their doctorate (Ph.D.) and from the laboratory(ies) where they are working at present. | Oct. 30th, 2009 |
| Grant (William T.) Foundation | Scholars Program | Scholars Program is designed to foster career development among promising early-career researchers. It encourages applications who want to tackle questions important to theory and either policy or practice for improving youth settings. The sponsor is interested in applicants trained across a range of social, behavioral, and health sciences. | Jul. 8th, 2009 |
| IEMed and Anna Lindh Foundation | A SEA OF WORDS – Short Story Competition | This project aims to encourage the production of short stories that portray the different realities of the Euro-Mediterranean region from the point of view of the young people who live there, through the organization of a Euro-Med short story competition. The theme is restoring trust, dialogue and reconciliation in situations of crisis and conflicts, in line with the objectives of the Restore Trust, Rebuild Bridges Initiative, launched by the Anna Lindh Foundation in collaboration with the Alliance of Civilizations. | Jun. 20th, 2009 Deadline for finalisation of national selection will be July 4, 2009 |

Funding Programs with Specific Deadlines

| | | | |
|---|---|--|---|
| LAM Foundation | Pilot Project Awards | The sponsor provides support for the study of Lymphangiomyomatosis (LAM).The Established Investigator Award is intended to support faculty level investigators (M.D. or Ph.D) who are experts in areas which are directly pertinent to LAM. The award is available to all qualified individuals regardless of academic rank. | Letters of Intent Deadline: Jul.30th, 2009. The application deadline is Sep.15th, 2009 |
| Leakey (Louis S.B.) Foundation | General Research Grants | The sponsor provides support to foster research into human origins. Recent priorities include research into the environment, archeology, and human paleontology of the Miocene, Pliocene, and Pleistocene; the behavior, morphology, and ecology of the great apes and other primate species; and the behavioral ecology of contemporary hunter-gatherers. Eligible applicants are: doctoral students, post-doctoral students, and senior scientists. | Jul. 15th, 2009 |
| Lindbergh (Charles A. and Anne Morrow) Foundation | Grants Program | Support is provided to initiatives and work in a wide range of disciplines which further the vision of a balance between the advance of technology and the preservation of the natural/human environment. Grants are made in: agriculture; aviation/aerospace; conservation of natural resources, including animal, plant, and water resources, and general conservation (land, air, energy, etc.); education, including humanities/education, the arts, and intercultural communication; exploration; health, including biomedical research, health and population sciences, and adaptive technology; and waste minimization and management. | Jun. 11th, 2009 |
| Mediterranean Sea Basin Cross Border Program-ENPI CBC | 1st Call for Standard Projects | It aims to promote a “sustainable and harmonious cooperation process at the Mediterranean Basin level by dealing with common issues and enhancing its potential.” The program focuses on: 1. Promotion of socio-economic development and enhancement of territories 2. Promotion of environmental sustainability at the basin level 3. Promotion of better conditions and modalities for ensuring mobility of persons, goods and capitals (Egypt and Tunisia do not want to be involved in this priority) 4. Promotion of cultural dialogue and local governance. | Sep. 16th, 2009 |
| National Cancer Institute | Application of Metabolomics for Translational and Biological Research | Sponsors offer support for the application of metabolomic technologies for translational research in human health and disease to Enable/improve disease detection, diagnosis, risk assessment, prognosis, and prediction of therapeutic responses. This program will Use the NIH Research Project (R01) award mechanism. | Sep. 1st, 2009; Oct. 5th, 2009; Jan. 2nd, 2010. Deadlines for receipt of standard R01 applications: Feb. 5th, Jun. 5th, & Oct. 5th annually. Deadlines for receipt of AIDS-related applications: Jan. 2nd, May 1st, & Sep. 1st annually. Program expires on Jan. 3rd, 2010. |

Funding Programs with Specific Deadlines

| | | | |
|-------------------------------------|---|--|---|
| National Cancer Institute (NIH) | Millennium promise awards: non-communicable chronic diseases research training program (D43) | This research training program is designed to build research capacity in low- and middle-income countries in the fields related to cancer, cerebrovascular disease including stroke, lung disease including chronic obstructive pulmonary disease and environmental factors including indoor air pollution, and obesity and lifestyle factors related to these conditions as well as genetics of non-communicable diseases. | Letter of Intent Deadline: Aug. 31st, 2009 & 2010. Full application Deadline: Sep. 29th, 2009; & Sep. 28th, 2010. |
| National Cancer Institute/NIH/DH HS | Exploratory Cancer Prevention Studies Involving Molecular Targets for Bioactive Food Components (R21) | The sponsors provide support for exploratory/developmental nutrition and cancer prevention research. The goal of this program is to foster exploratory and developmental research on important topics in nutrition and cancer prevention. This initiative seeks to promote cancer prevention research focused on the identification and characterization of molecular targets for bioactive food components. | Jun. 16th, 2009, Oct. 16th, 2009, Feb. 16th, 2010. |
| National Cancer Institute/NIH/DH HS | Exfoliated Cells and Circulating DNA in Cancer Detection and Diagnosis (R21) | The sponsor provides support for the development of novel technologies for capturing, enriching, and preserving exfoliated abnormal cells from body fluids or effusions as well as methods for concentrating the tumor-derived sub-cellular material for use in biomarker studies. | Jun. 16th, 2009 |
| National Cancer Institute/NIH/DH HS | Diet, Epigenetic Events, and Cancer Prevention (R01) | The sponsors provide support for clinical and preclinical research to determine how diet and dietary factors, including dietary supplements, impact DNA methylation, histone posttranslational modification, and other epigenetic processes involved in cancer prevention and development. This initiative encourages collaborations between nutrition and experts in epigenetics to study bioactive food components with cancer-preventative properties and to examine key epigenetic events in cancer processes. | Sep. 1st, 2009. Deadlines for receipt of standard applications: Feb. 1st, Jun. 1st, & Oct 1st annually. Deadlines for receipt of AIDS-related applications: Jan. 2nd, May 1st, & Sep. 1st annually. Program expires on Sep. 2nd, 2009. |
| National Cancer Institute/NIH/DH HS | Geographic and Contextual Influences on Energy Balance-Related Health Behaviors (R21) | The sponsors provide support for hypothesis-driven projects exploring associations between the built environment, other contextual features of where people of all ages live and work and health behaviors related to energy balance. These projects should use population level data from health surveys and other large health studies. | Jun. 16th, 2009; Sep. 7th, 2009; Oct. 16th, 2009; Jan. 7th, 2010; Feb. 16th, 2010; May. 7th, 2010 ; Jun. 16th, 2010; Sep. 7th, 2010 ; Oct. 16th, 2010; Jan. 7th, 2011 ;Feb. 16th, 2011; May 7th, 2011 ;Jun. 16th, 2011; Sep. 7th, 2011. |

Funding Programs with Specific Deadlines

| | | | |
|---|--|---|---|
| National Center for Research Resources/NIH/DHHS | Development of Animal Models and Related Biological Materials For Research (R21) | The sponsor solicits applications from organizations proposing to develop, characterize or improve animal models for human disease or to improve diagnosis and control diseases of laboratory animals that may interfere with research. The objective is to stimulate novel areas of investigation related to laboratory animal science and medicine and model systems. Categories and examples of such research include: Animal Models, Reproductive Biology, Fundamental Biology of Animal Systems, Regenerative Medicine, Animal Disease. | Jun. 16th, 2009 ; Sep. 7th, 2009 ; Oct. 16th, 2009 ; Jan. 7th, 2010 ; Feb. 16th, 2010 ; May 7th, 2010. The deadlines for receipt of standard applications are: Feb. 16, Jun. 16, and Oct. 16 annually. The deadlines for receipt of AIDS-related applications are: Jan. 7, May 7, and Sep. 7 annually. |
| National Cancer Institute/NIH/DHHS | Developmental Projects in Complementary Approaches to Cancer Care and Treatment (R21) | The sponsors invite applications for basic, pre-clinical, and clinical complementary cancer research. The research should relate to the areas of prevention, diagnosis, and treatment of cancer as well as management of cancer symptoms and side effects due to conventional cancer treatment. It encourages the development and application of emerging and innovative technologies, including identification of novel therapeutics in the pharmacopoeia of Traditional Medical Systems , | Sep. 7th, 2009, Oct. 16, 2009, Jan. 7th, 2010, Feb. 16th, 2010, May 7th, 2010, Jun. 16th, 2010, Sep. 7th, 2010, Oct. 16th, 2010, Jan. 7th, 2011, Feb. 16th, 2011, May 7th, 2011, Jun. 16th, 2011, Sep. 7th, 2011, Oct. 16th, 2011, Jan. 7th, 2012, Feb. 16, 2012, May 7th, 2012. |
| National Cancer Institute/NIH/DHHS | Understanding the Effects of Emerging Cellular, Molecular, and Genomic Technologies on Cancer Health Care Delivery (R01) | The sponsor invites grant applications for health services research that address the utilization of emerging cellular, molecular, and genetic or genomic (CMG) technologies in cancer care. The studies will assess CMG technologies in relation to: (a) quality of care; (b) organizational barriers and change factors in utilization; (c) cost and cost-effectiveness; (d) disparities in access and efficacy; (e) monitoring of cross-sectional patterns of care and time trends; (f) impact on existing standards of care; and (g) influence on cancer outcomes such as incidence, progression, mortality, survival, and quality of life. It encourages interdisciplinary collaborations between health services researchers and those in the clinical and/or translational sciences. | Sep. 7th, 2009, Oct. 5th, 2009, Jan. 7th, 2010, Feb. 5th, 2010, May 7th, 2010, Jun. 5th, 2010, Sep. 7th, 2010, Oct. 5th, 2010, Jan. 7th, 2011, Feb. 5th, 2011, May 7th, 2011, Jun. 5th, 2011, Sep. 7th, 2011, Oct. 5th, 2011, Jan. 7th, 2012. Applications may be submitted on or after: Jan. 5th, 2009. The deadlines for receipt of standard R01 are: Feb. 5th, and Oct. 5th annually. The deadlines for receipt of AIDS-related application are: Jan. 7th, May 7th, and Sep. 7th annually. |
| National Eye Institute/NIH/DHHS | NIH Clinical Trial Planning Grant (R34) Program | The sponsor provides support for the development of a Phase III clinical trial, this includes the establishment of the research team, the development of tools for data management and oversight of the research, the definition of recruitment strategies, and the finalization of the protocol and other essential elements of the study included in a manual of operations/procedures. The planning grant is designed to: (1) permit early peer review of the rationale for the proposed clinical trial; (2) permit assessment of the design/protocol of the proposed trial in its current, early form; (3) provide support for the development of a detailed MOP; and (4) support the development of other essential elements of a clinical trial as defined by the individual participating ICs. | Jun. 16th, 2009; Sep. 7th, 2009; Oct. 16th, 2009; Jan. 7th, 2010; Feb. 16th, 2010; May 7th, 2010; Jun. 16th, 2010; Sep. 7th, 2010; Oct. 16th, 2010; Jan. 7th, 2011; Feb. 16th, 2011; May 7th, 2011; Jun. 16th, 2011; Sep. 7th, 2011; Oct. 16th, 2011; Jan. 7th, 2012; Feb. 16th, 2012; May 7th, 2012. The deadlines for receipt of standard applications are: February 16, June 16, and October 16 annually |

Funding Programs with Specific Deadlines

| | | | |
|--|--|---|--|
| National Institute on Aging/NIH/DHHS | Renal Function and Chronic Kidney Disease in Aging (R21) | The sponsors invite applications that propose basic, clinical, and translational research on chronic kidney disease (CKD) and its consequences in aging and in older persons. It should focus on the 1) biology and pathophysiology of CKD in animal models; 2) etiology and path physiology of CKD in the elderly; 3) epidemiology and risk factors for the development of CKD with advancing age; and/or 4) diagnosis, medical management and clinical outcomes of CKD in this population. | Jun. 16th, 2009; Sep. 07th, 2009; Oct. 16th, 2009; Jan. 7th, 2010; Feb. 16th, 2010; May 7th, 2010; Jun. 16th, 2010; Sep. 07th, 2010; Oct. 16th, 2010; Jan. 7th, 2011; Feb. 16th, 2011; May 7th, 2011; Jun. 16th, 2011; Sep. 07th, 2011; Oct. 16th, 2011; Jan. 7th, 2012; Feb. 16th, 2012; May 7th, 2012. |
| National Institute of Allergy and Infectious Diseases | Non-Biodefense Emerging Infectious Diseases Research Opportunities | The sponsor offers support for applications that propose to further understand the natural history of microbial agents of human infectious diseases and events leading to acquiring pathogenic potential by these agents. Research will focus on: human bacterial pathogens in non-pathogenic states; non-human viral pathogens prior to development of human pathogenic potential; or the changes that result in human pathogenicity. This program will use the NIH Research Project (R01) award mechanism. | Oct. 5th, 2009; Feb. 5th, 2010. Program expires on Mar. 6th, 2010. |
| National Institute of Biomedical Imaging and Bioengineering/NIH/DHHS | Innovation in Molecular Imaging Probes (R01) | The sponsors provide support for the development of novel molecular imaging approaches that can detect and image specific molecular activities in vivo, and have the potential for clinical applications. Novel molecular imaging approaches developed through this initiative can focus on one (or both): 1) imaging the characteristic markers, and function, of normal cells in control human subjects and patients, and (2) imaging the characteristic markers, and biochemical or physiological abnormalities, of disease cells in patients. Potential abnormalities that could provide early markers for disease include : inflammation, fibrosis, immune cell activation, altered signal transduction pathways, altered gene expression pathways, and altered post-translational modification of proteins. | Aug. 21st, 2009; Sep. 21 st, 2009; Dec. 21st, 2009; Jan 21st, 2010; Apr. 21st, 2010; May 21st, 2010; Aug. 21st, 2010; Sep. 21 st, 2010; Dec. 21st, 2010;Jan 21st, 2011; Apr. 20th, 2011; May 20th, 2011; Aug. 21st, 2011; Sep. 21 st, 2011.The deadlines for receipt of optional letters of intent are: Aug. 21, 2009; Dec. 21, 2009; Apr. 21, 2010; Aug. 21, 2010; Dec. 21, 2010; Apr. 20, 2011; Aug. 21, 2011. The corresponding deadlines for receipt of full applications are:May 21, 2009; Sep.r 21, 2009; Jan.21, 2010; May 21, 2010; Sep. 21, 2010; Jan. 21, 2011; May 20, 2011; Sep. 21, 2011. |
| National Institute of Diabetes and Digestive and Kidney Diseases | Pilot and Feasibility Clinical Research Grants in Diabetes, Endocrine and Metabolic Diseases (R21) | The sponsors invites xploratory/developmental clinical research related to the prevention or treatment of diabetes, obesity and endocrine and genetic metabolic diseases. The short-term studies should focus on research questions that are likely to have high clinical impact. They can include testing a new prevention strategy, a new intervention, or unique combinations of therapies. A high priority is the use of such studies to help stimulate the translation of promising research developments from the laboratory into clinical practice in diabetes, endocrine diseases and genetic metabolic diseases, including cystic fibrosis. | Jun. 16th, 2009; Sep. 7th, 2009; Oct. 16th, 2009; Jan. 7th,2010; Feb 16th, 2010; May 7th, 2010; Jun. 16th, 2010; Sep. 7th, 2010; Oct. 16th, 2010; Jan. 7th, 2011; Feb. 16th, 2011; May 7th, 2011; Jun. 16th, 2011; Sep. 7th, 2011; Oct. 16th, 2011; Oct. 7th, 2012; Feb. 16th, 2012 ; May 7th, 2012. Deadline for standard applications: Feb.16, Jun. 16, and Oct. 16, annually. |

Funding Programs with Specific Deadlines

| | | | |
|---|--|---|--|
| National Institute of Diabetes and Digestive and Kidney Diseases | Diet Composition and Energy Balance | Sponsors provides support for research investigating the role of diet composition in energy balance, including studies in both Animals and humans. This program will use the NIH Research Project (R01) award mechanism. | Sep.1st, 2009; Oct. 5th, 2009; Jan. 2nd, 2010; Feb. 5th, 2010. Deadlines for receipt of Standard R01 applications: Feb. 5th, Jun. 5th, & Oct. 5th annually. Deadlines for receipt of AIDS-related applications: Jan 2nd, |
| National Institute of Diabetes and Digestive and Kidney Diseases/NIH/DHHS | Pilot and Feasibility Clinical Research Studies In Digestive Diseases And Nutrition (R21) | The sponsor offers support for pilot and feasibility clinical and epidemiological research studies of new therapies or means of health promotion and prevention of digestive and liver diseases and nutritional disorders associated with digestive and liver diseases, including cancer. The goal is to provide flexibility for initiating preliminary, short-term studies, thus allowing new ideas to be investigated in a more expeditious manner without stringent requirements for preliminary data. | Jun. 16,2009; Oct. 16,2009; Feb. 2,2010; Jun. 16,2010; Oct. 16, 2010; Feb. 16, 2011; Jun. 16, 2010; Oct. 16, 2011; Feb. 16, 2012. |
| National Institute of Environmental Health Sciences | DERT Areas of Special Interest: Translation of Basic Biology to Clinical Studies and Environmental Medicine: | The sponsor's Division of Extramural Research and Training (DERT) provides support to build a research focus emphasizing the etiology and diagnosis of diseases that are in part due to environmental exposures, and to translate findings in animal models and in vitro studies to the association of a clinical outcome with an environmental exposure. | Contact Carol Shreffler, Ph.D program official for further information on the application submission process |
| National Institute of Mental Health/NIH/DHHS | Research on Psychopathology In Intellectual Disabilities (Mental Retardation) (R01) | The sponsor provides support for research designed to elucidate the epidemiology, etiology, treatment, and prevention of mental disorders, including emotional and behavioral problems, in persons of any age with intellectual disabilities (mental retardation). | Oct. 5,2009; Feb. 5,2010; Jun. 5,2010; Oct. 5,2010; Feb. 5 ,2011; Jun. 5,2011; Oct. 5,20011; Feb. 5,2012 |
| National Institute of Mental Health | Information Technologies and the Internet in Health Services and Intervention Delivery | The sponsors offer support for research to study the impact of health information technology on health interventions and services. Studies related to the impact of technology on the delivery of Health-related information as well as health-related clinical interventions is encouraged. This program will use the NIH Research Project (R01) award mechanism. | Sep. 1st, 2009; Oct. 5th, 2009; Jan. 2nd, 2010. Deadlines for receipt of standard R01 applications: Feb. 5th, Jun. 5th, & Oct. 5th annually. Deadlines for receipt of AIDS-related applications: Jan 2nd, May 1st, & Sep. 1st annually. Program expires on Jan. 3rd, 2010. |
| National Institute of Mental Health | Dissemination and Implementation Research in Health (R03) | The sponsor provides support for research that will identify, develop, and refine effective and efficient methods, structures, and strategies that test models to disseminate and implement research-tested health behavior change interventions and evidence-based prevention, early detection, diagnostic, treatment, and quality of life improvement services into public health and clinical practice settings. The NIH R03 award mechanism will be used. | Sep. 1st, 2009. Program expires on Sep. 2nd, 2009. |

Funding Programs with Specific Deadlines

| | | | |
|---|--|---|---|
| National Institute of Nursing Research | Focal Cognitive Deficits in CNS Disorders | Sponsors offer support for basic and translational research, including intervention research, on the types, nature, and functional consequences of focal or specific cognitive deficits experienced by persons with central nervous system disorders. Program will use the NIH Small Research Grant (R03) award mechanism. | Jun. 16th, 2009; Sep. 7th, 2009; Oct. 16th, 2009; Jan. 7th, 2010 Deadlines for receipt of standard applications: Jun. 16th, & Oct. 16th, annually. Deadlines for receipt of AIDS-related applications: Jan 7th, May 7th, & Sep. 7th, annually. Program expires on Jan. 8th, 2010. |
| National Institute of Nursing Research | Chronic Illness Self-Management in Children and Adolescents | The sponsor provides support for research to improve self-management and quality of life in children and adolescents with chronic diseases. Biobehavioral studies of children in the context of family and family-community dynamics are encouraged. This program will Use the NIH Research Project (R03) award mechanism. | Jun. 16th, 2009; Sep. 7th, 2009; Oct. 16th, 2009; Jan. 7th, 2010 Deadlines for receipt of standard R03 application: Feb. 5th, Jun. 16th, & Oct. 16th annually. Deadlines for receipt of AIDS-related applications: Jan. 7th, May 7th, & Sep.7th, annually. Program will expire on Jan. |
| National Institute of Nursing Research/NIH/D HHS | Symptom Interactions in Cancer and Immune Disorders (R21) | The sponsor offers support to (a) identify and assess bio-behavioral interactions among two or more related and co-occurring symptoms; (b) characterize mechanisms and pathways underlying the symptom interactions; (c) elucidate the level of interaction necessary for categorization as a symptom cluster; and/or (d) design and test interventions targeted to interacting or clustered symptoms that are hypothesized to lead to beneficial patient outcomes. | Jun. 16th,2009; Sep. 7th, 2009; Oct. 16th, 2009; Jan. 7th, 2010; Feb. 16th, 2010; May 7th, 2010; Jun. 16th, 2010; Sep. 7th, 2010; Oct. 16th, 2010; Jan. 7th, 2011; Feb. 16th, 2011;May 7th, 2011. The deadlines for receipt of standard applications under this announcement are: Feb.16, Jun. 16, and Oct.16 annually. |
| National Institute of Nursing Research/NIH/D HHS | Integrating Biobehavioral and Sociocultural Research to Prevent HIV Transmission and Infection (R21) | The sponsors solicit applications from applicant organizations to develop theoretically grounded approaches to prevention of HIV infection and transmission that incorporate biobehavioral approaches in studies that are culturally appropriate. Biobehavioral approaches may be biomedical, or they may consist of behavioral interventions using biological markers of efficacy. Sociocultural appropriateness involves, at minimum, application of knowledge of the norms, beliefs and values of potential research subjects in varied contexts, and an appreciation of culture as dynamic. | Jun. 16th,2009; Sep.7th, 2009; Oct. 16th, 2009; Jan. 7th, 2010; Feb. 16th, 2010; May 7th, 2010; Jun. 16th, 2010; Sep.7th, 2010; Oct.16th, 2010; Jan. 7th, 2011; Feb. 16th, 2011; May 7th, 2011 |
| National Institute for Occupational Safety & Health (NIOSH) /CDC/DHHS | NIOSH Exploratory and/or Developmental Grant Program (R21) | The sponsor provides support for research related to occupational safety and health. The NIOSH research program goal is to support research that is relevant, of high quality, and demonstrates impact in reducing occupational disease and injury.NORA Sector Programs: Agriculture, Forestry & Fishing;Construction;Healthcare & Social Assistance; Manufacturing; Mining; Public and Private Services; Trade; and Transportation, Warehousing &Utilities. The sponsor provides support for research related to occupational safety and health. | Oct. 16th, 2009; Feb. 16th, 2010; Jun. 16th, 2010; Oct. 16th, 2010; Feb. 16th, 2011; Jun. 16th, 2011; Oct. 16th, 2011, Feb. 16th, 2012, Jun. 16th, 2012. |

Funding Programs with Specific Deadlines

| | | | |
|--|--|---|---|
| National Institute on Aging/NIH/DHHS | Mechanisms, Measurement, and Management of Pain in Aging: from Molecular to Clinical (R21) | The sponsors invite applications from institutions/organizations that propose to: 1 - study biological, neurobiological, psychosocial, and clinical mechanisms and processes by which aging and/or age-related diseases affect the experience of pain, (2) examine biological, neurobiological, psychosocial, and clinical factors that impact pain experience and prevalence in older people, (3) evaluate existing pain assessment and/or management approaches in older adults, or (4) develop new assessment methods and/or management strategies for pain with particular attention to the needs of older adults. Studies involving animal models or human subjects are appropriate under this program announcement. | Oct.16th, 2009, Jan.7th, 2010, Feb.16, 2010, May 7th, 2010, Jun. 16th, 2010, Sep.7th, 2010, Oct.16, 2010, Jan 7, 2011, Feb.16th, 2011, May 7th, 2011, Jun.16th, 2011, Sep. 7th, 2011, Oct.16, 2011, Jan.7th, 2012, Feb.12, 2012. The deadlines for receipt of standard are: Feb.16th, Jun.16th, Oct.16th annually. The deadlines for receipt AIDS-related applications are: Jan.7th, May 7th, Sep.7th annually. |
| National Science Foundation (NSF) | Research and Evaluation on Education in Science and Engineering (REESE) | The program supports basic and applied research and evaluation that enhance science, technology, engineering, and mathematics (STEM) learning and teaching. The Research and Evaluation on Education in Science and Engineering (REESE) program aims at advancing research at the frontiers of STEM learning, education, and evaluation, and at providing the foundational knowledge necessary to improve STEM teaching and learning at all educational levels and in all settings. This solicitation calls for three types of proposals--Knowledge Diffusion, Empirical Research, and Large Empirical Research. | Full Proposal Deadline(s) (due by 5 p.m. proposer's local time): Nov. 12th, 2009 |
| National Geographic Society | Genographic Legacy Fund Grants | The purpose of the program is to: increase overall awareness of the critical challenges, pressures and threats facing indigenous communities worldwide and to offer support through the fund; deliver medium- and longer-term, tangible benefits to indigenous communities around the world; focus on indigenous cultural conservation and language preservation as well as specific education programs; and empower indigenous communities and build capacity by funding relevant programs and projects that are sustainable beyond the established timeframe of the Geographic Project. | Jun. 15th, 2009, Dec. 15th, 2009 |
| Office of Research on Women's Health (NIH) | Chronic Fatigue Syndrome: Pathophysiology and Treatment (R01) | The sponsors offer support for research to examine the etiology, diagnosis, pathophysiology, and treatment of chronic fatigue syndrome (CFS). The NIH is interested in funding interdisciplinary research that will enhance our knowledge of the disease process and improve the diagnosis, treatment, and quality of life of all persons with CFS. This program will use the NIH Research Project (R01) award mechanism. | Sep.7th, 2009; Oct. 5th, 2009; Jan. 7th, 2010; Feb. 5th, 2010; May 7th, 2010; Jun. 5th, 2010; Sep. 7th, 2010; Oct. 5th, 2010; Jan. 7th, 2011; Feb. 5th, 2011; May 7th, 2011; Jun. 5th, 2011; Sep. 7th, 2011. Applications may be submitted to Grants.gov in response to this announcement after Sep. 5th, 2008. |

Funding Programs with Specific Deadlines

| | | | |
|---|---|--|--|
| Royal College of Obstetricians and Gynecologists | Ethicon Travel Awards | The sponsor aims to promote international goodwill in the specialty of obstetrics and gynecology. The awards are available for Members of the College from the British Isles who are trainees, and overseas Members not in independent practice. Applications are encouraged for visits to centers of research or to obtain clinical training. | Jul. 31st, 2009 |
| The Oncology Nursing Society and Sigma Theta Tau International Foundation | Small Research Grant | The Foundation invites application to stimulate oncology nursing research. The author is encouraged to publish research results in the Oncology Nursing Forum or Sigma Theta Tau's international publication. Preference is given to projects that involve nurses in the design and conduct of the research activity and that promote theoretically based oncology practice. Applicants must be licensed, registered nurses and be master's prepared. | Letters of Intent Due: Oct.1st, 2009. Application Deadline: Nov. 1st, 2009. |
| The Volkswagen Foundation | Common Future Conference Grants | The sponsor invites applications for the common future conference grants. Applicants can choose between the following five research areas: •Climate change and energy ; •Technology : Communication, mobility, Factory of the future; •Economic and urban development ; •Global health and molecular and integration medicine ; •Human rights , Migration and integration , Religion and values .Funding covers travel and accommodation expenses for the conference and the preparatory workshops. | Jul. 31st, 2009 |
| The Wellcome Trust | Seeding Drug Discovery Grants | The objective of the scheme is to develop drug-like, small molecules that will be the springboard for further research and development by the biotechnology and pharmaceutical industry in areas of unmet medical need. UK based not-for-profit organizations and companies may apply and may collaborate or partner with parties located overseas. | Nov. 9th, 2009 |
| The Wellcome Trust | Translation Awards | The Trust invites preliminary proposals under its technology transfer translation awards scheme. The awards are response-mode grants designed to bridge the funding gap in the commercialization of new technologies in the biomedical area. Projects covering any aspect of product or technology development with origins in the physical, computational and life sciences are eligible. Eligible applicants are not-for-profit research institutions. UK organizations may contract or collaborate with overseas organizations. | Aug.14, 2009 |
