Assistant Professors:	Aswad, Naji (Clinical); Ghazeeri, Ghina
Clinical Instructor:	Bazi, Toni
Research Associate:	El-Hajjami, Fatiha
Clinical Associates:	Adra, Abdallah; Chahine, Rabih; Jehshan, Antoine

The Department of Obstetrics and Gynecology offers clinical clerkships and specialty electives to medical students. It also offers clinical postgraduate training to MD graduates including internship and residency. The internship program is either a one-year straight internship in obstetrics and gynecology or a rotation for rotating interns. The residency program is a three-year specialty training in obstetrics and gynecology, including rotations in pathology. Straight interns and residents sit for a yearly examination of the Council for Resident Education in Obstetrics and Gynecology administered by the American College of Obstetrics and Gynecology. The residency training in the department is recognized by the Royal College of Obstetrics and Gynecology. After the second year of residency, trainees are eligible for the first part of the Royal College Examination. The second part recognizes their training and requires a period of 12 months of training in the British Isles toward the MRCOG. The training is also recognized by the Arab Board of Medical Specialties.

OBYG 247 Clinical Clerkship 47-360.

A clerkship offered to third year students consisting of daily seminars in normal and abnormal obstetrics and gynecology, weekly grand rounds, a monthly pathology conference, and a clinical clerkship in the delivery suite, hospital wards, and outpatient clinics. Other activities include specialty clinics in reproductive endocrinology, assisted reproductive technology, family planning, gynecologic oncology, fetal maternal medicine, and gynecologic urology. *Two months.*

OBYG 248 Elective in Obstetrics and Gynecology 0.180-360.

Exposure to selected sub-disciplines. *Offered to fourth year students. One to two months.*

OBYG 287 Internship 0.524.

Training in clinical obstetrics and gynecology, and in research, offered to rotating interns. *Two months.*

OBYG 288 Straight Internship 0.2882.

Includes rotations in internal medicine and nursing. Interns prepare weekly seminars. *Eleven months.*

Weekly Conferences

Ward rounds, chairperson's round, chart review, specialty conference, journal club, grand rounds, pathology conference, and joint obstetrics/pediatric conference.
