

Center for Research on Population and Health (CRPH)

Staff

Director	Zurayk, Huda C.
Assistant Research Professors:	Kobeissi, Loulou H.; Nakkash, Rima T.
Program Administrator:	Ismail, Ruba A.
Communications Coordinator:	Dimechkie, Hala R.

Affiliates

Affiliate Professors:	Nuwayhid, Iman A.; Ramia, Sami
Associate Professors:	Affi, Rima A.; Chaaya, Monique M; DeJong, Jocelyn L.; Kabakian-Khasholian, Tamar K.; Makhoul, Jihad J.; Sibai, Abba M.
Assistant Professors:	Abdulrahim, Sawsan H.; Habib, Rima R.; Mahfoud, Ziyad R.; Osman, Hibah O.
Visiting Assistant Professor:	Yassin, Nasser K.
Senior Lecturer:	[†] El Kak, Faysal H.
Instructor:	Kanj, Mayada F.

The mission of the Center for Research on Population and Health is to strengthen and enrich the population and health research at AUB, and to support a program of interdisciplinary research on issues at the intersection of population and health. The center seeks to promote collaboration among researchers and professionals with similar research interests in Lebanon, the region, and internationally, and to disseminate findings to scientists, policymakers, and the public.

Research Program

The Center's research program is currently exploring the urban demographic factors, social conditions, and economic circumstances influencing various dimensions of health, particularly those of reproductive health, adolescent health, health of the elderly, and occupational health. Public policy relevance is strongly emphasized in research conducted under the auspices of the CRPH.

Activities

Research Working Groups

The center's research activities are undertaken by research working groups formed through collaboration among FHS faculty, graduate students, and colleagues at AUB and in the region. These interdisciplinary research teams work on various dimensions of health, informed by population, public health, and sociological and epidemiological perspectives. Current research working groups include an Urban Health Research Group and the regional Choices and Challenges in Changing Childbirth Research Group.

Research Networking

CRPH also supports an active regional network through its Visiting Fellows Program, periodic training workshops and conferences, and the maintenance of regional data sets. CRPH and FHS enjoy collaborative relationships with other institutions and groups in the region, including the Social Research Center at the American University in Cairo, the Institute of Community and Public Health at Birzeit University in Palestine, the Department of Community Medicine at Damascus University, and the regional FHS-based Reproductive Health Working Group.

Research Support

The center provides researchers at FHS with access to resources and technical support in terms of computing and analysis; access to the CRPH computing lab and regional data sets; limited computing support for data entry and statistical analysis; training for field researchers in data analysis, statistical computing, and qualitative methods; assistance to affiliates in proposal development, including budgeting and logistical support for survey field operations.

Outreach

The center is committed to the broad dissemination of all research findings through publications and printed materials including research briefs, working papers, bi-annual newsletters, and workshops and conferences.
