Department of Dermatology

Chairperson: Kibbi, Abdul-Ghani
Professors: Kibbi, Abdul-Ghani; Rubeiz, Nelly; Zaynoun, Shukrallah (Clinical)
Associate Professors: Abbas, Ossama; Ghosn, Samer; Malak, Johnny (Clinical); Matta-Muallem, Muna (Clinical)
Assistant Professors: El-Tal, Abdel Kader; Kurban, Mazen
Clinical Associates: Abd-el-Baki, Jasmin; El-Saad-Debahy, Nada; Salman, Salah

The Department of Dermatology participates in the course Introduction to Medicine (IDTH 221/222) given to Medicine II students. Elective and selective clerkships are also available for Medicine IV students, interns, and housestaff, as well as for foreign medical students and graduates. A three-year residency training program in dermatology, accredited by the Arab Board of Medical Specializations and its Scientific Council of Dermatology and Venereology, is offered to MD graduates following one year of internship. The goal of the training program is to produce fully competent dermatologists capable of providing a broad spectrum of quality care to patients. Residents in training are involved in daily general and specialty clinics, including phototherapy, contact dermatitis, dermatologic surgery, skin oncology, hair and nail, and connective tissue clinics.

An equivalent tuition fee-based residency training program is also open to foreign medical graduates. All candidates must be holders of the MD or its equivalent from a recognized university. The DEAN’S EXAM, administered by the Faculty of Medicine’s office at the American University of Beirut during the month of March, is a prerequisite before applications are considered. Candidates are exempted from this exam if they have successfully passed the clinical part of USMLE step II.

DERM 267 Elective in Dermatology 9.90-180.
Students participate in the morning clinics (general dermatology) and afternoon clinics (specialty clinics including hair and nail and genodermatoses clinics), as well as seminars, conferences, journal club, and assignments of audio-visual teaching material. Students can participate in ongoing clinical research programs. At the end of the one-month rotation, a final examination is offered to students. This course is offered to AUB and Non-AUB students. One month.

DERM 277 Selective in Dermatology 9.90-180.
Dermatology is the study of skin in health and disease. The goal of this selective is to share with fourth year medical students our enthusiasm for the subject of dermatology and to administer a well organized, informative, and focused course. During this rotation, the essentials of morphology, diagnosis and management will be underscored. By the end of the course students are expected to acquire basic clinical dermatology and to work-up and manage patients with skin, hair, nail, and mucous membrane disorders. A final exam is offered at the end of the year for all the students. This course is offered only to fourth year medical students enrolled in AUB. Four weeks.

DERM 287 House staff 9.131-262.
Same as DERM 267, offered to straight and rotating interns and residents of other departments on an elective basis. One month.
