Department of Neurology

Chairperson: Atweh, Samir
Professors: Atweh, Samir; Beydoun, Ahmad; Khoury, Samia; Sawaya, Raja; Yamout, Bassem (Clinical)
Associate Professors: Khalifeh, Riad (Clinical); Tabbal, Samer; Salameh Johnny
Assistant Professors: Lawand, Nada; Makki, Achraf; Nasreddine, Wassim; Khoury, Riad

The Department of Neurology, established in July 2011, offers clinical clerkships to medical students in MED III and MED IV years, and electives in Neurology to MED IV students. The Department also participates in teaching preclinical students the Basic Neuroscience course. The Department offers a 3-year post-graduate residency training program in Clinical Neurology as well as post-residency fellowships in Epilepsy, Neuromuscular Diseases, and Multiple Sclerosis. Residents sit for the RITE examination offered by the American Academy of Neurology. Members of faculty of the Department of Neurology participate in the teaching of Basic Neuroscience to preclinical students in MED II.

NEUR 247     MED III Clinical Clerkship in Neurology 90.90
MED III students rotate for 2 weeks in the Neurology consult service. The rotation allows them to see Neurology patients on the consult service and the Emergency room, and to attend Neurology clinics daily. They also attend daily lectures and the neurology grand round.

NEUR 262     MED IV Clinical Clerkship in Neurology 90.90
MED IV students rotate for 2 weeks on the inpatient neurological service and the neurological intensive care. They have daily attending teaching rounds and lectures, as well as attending the neurology grand round.

NEUR 267     Elective in Neurology 0.180
Elective rotations are offered to MED IV medical students and housestaff where they rotate for 4 weeks on the consult service and outpatient clinics. They attend daily rounds, lectures and weekly grand round.

Weekly Conferences
The Department of Neurology organizes general neurology conferences including Neurology Grand Round, Mortality and Morbidity conferences, Core Curriculum Lectures, Journal Club, as well as a weekly Multiple Sclerosis (MS) conference.
