Departmental courses are designed to introduce students to the principles and practices in the field of health management and policy, with an emphasis on managerial functioning in healthcare organizations. The Department offers a few undergraduate courses in health administration, and contributes to courses, catered to major and minor programs.

The following courses are offered by the department:

HMPD 204 Introduction to Health Services Administration 3.0; 3 cr.
A course that provides students with basic knowledge and skills demanded to assist in managing healthcare and related organizations. The objective of the course is to acquaint the students with the principles of healthcare systems, human resources management, financial materials management, and issues related to quality of care and regulation.

HMPD 251 Introduction to Health Care Economics 3.0; 3 cr.
An introduction to the basic principles of microeconomics and the elements necessary to apply these principles to the health care field. This course introduces usable economic tools, especially those that will improve the efficiency of resource allocation and decision-making in the health sector.
