Historical Background

The Faculty of Arts and Sciences was established in 1866, the same year in which the Syrian Protestant College, now the American University of Beirut, was established. On December 13, 1866, the first class was held, attended by sixteen students, and in 1870 the first five students graduated. Arabic, which was the language of instruction since the inception of the college, was replaced by English in 1882.

The University in general, and the Faculty of Arts and Sciences in particular, have survived many crises since 1866, including two world wars, regional and local wars, student strikes, and economic crises. In spite of all these hardships, the Faculty has continued to develop and to maintain its high academic standards.
Mission
The Faculty of Arts and Sciences embodies AUB’s core commitment to the liberal arts and sciences. It offers undergraduate and graduate programs in the arts, humanities, and social, natural, and mathematical sciences, and is dedicated to advanced research in all of these domains. Through its freshmen and general education programs, it is the University’s principal gateway to higher studies and professional education. The faculty, through its teaching and research, promotes free inquiry, critical thinking, academic integrity, and respect for diversity and equality.

Vision
Building upon its rich tradition, the Faculty of Arts and Sciences is determined to position itself at the heart of free inquiry in the Middle East. Free and critical thinking is central to the faculty’s teaching, its research, its engagements with the wider community, and its commitment to the thoughtful transformation of all of its activities and structures. The faculty’s enhanced undergraduate programs will graduate innovators with a breadth of vision who can be agents of positive change wherever they live and work. The faculty will strategically expand its graduate offerings, especially in areas where it can make a distinctive contribution, and it will educate graduate students who are themselves producers of knowledge. The faculty will be recognized internationally for the quality of its research and creative activities in the humanities, social sciences, natural sciences, mathematical sciences, and interdisciplinary areas, whether undertaken in response to regional and global needs or to human curiosity and imagination. The faculty will provide a vital forum for open discussion and engage contemporary issues in ways that resonate far beyond our campus walls.

Undergraduate Programs
Students entering the Faculty of Arts and Sciences as freshmen, except those admitted as special students or auditors, select one of the following programs:

• Preparation for majors offered in Arts and Sciences
• Preparation for Business Administration, Health Sciences, Engineering and Architecture, or Agricultural and Food Sciences

Students entering the Faculty of Arts and Sciences as sophomores select one of the following two programs; for each program a period of three years of study is normally required:

• Bachelor of Arts
• Bachelor of Science

There are three major categories of disciplines in the Faculty of Arts and Sciences. Their distribution according to degree-offering departments is as follows:

• Humanities: Arabic, English, Fine Arts and Art History, History and Archaeology, and Philosophy
• Social Sciences: Economics, Education, Political Studies and Public Administration, Psychology and Sociology, Anthropology and Media Studies
• Sciences: Biology, Chemistry, Computer Science, Geology, Mathematics, and Physics
Admission

For complete and detailed information regarding admission to the University, including certificates recognized, see the Admission section of this catalogue. The specific requirements for admission to the freshman or sophomore class are found on pages 30-31.

Classification of Students

An undergraduate student shall be considered to have completed a class when s/he has taken and passed 30 or more credits beyond the requirements for the previous class.

A student will not be granted a certificate stating that s/he has completed a class until s/he has completed the specified courses in the regular program for that class and has acquired the requisite number of credits. The credit requirements are as follows:

<table>

<tr>

<td>30 credits</td>

</tr>
<tr>
<td>For the completion of the junior class</td>

<td>Cumulative 60 credits</td>
</tr>
</tbody>
</table>

Full-time Students and Maximum Credit Loads

To be considered full-time, a student must carry a minimum load of 12 credits per semester. A full-time student who, for compelling reasons, is forced to reduce her/his load to fewer than 12 credits must first petition the Student Academic Affairs Committee for permission to do so. This should be done no later than 10 weeks after the start of the semester (five weeks in the case of summer school). Students in their first semester at AUB may be allowed to reduce their load to fewer than 12 credits by requesting permission from the Student Academic Affairs Committee. Requests are handled on a case-by-case basis.

Students can normally register for up to 17 credits per semester and 9 credits during the summer term. English course requirements must be taken as of the first semester at the University. Students who wish to register for more than 17 credits must petition the Student Academic Affairs Committee for permission to do so. Requests are handled on a case-by-case basis. Students in the following categories will normally be granted permission by the Student Academic Affairs Committee to register for more than 17 credits:

- Freshman students intending to go into engineering, and who have an average of at least 80 for the first semester, may take an additional course in the second semester.
- Graduating senior students in their last semester who are not on academic probation and who have completed their English communication skills requirements at the level required by their major departments may register for a maximum of 18 credits.
- If the program requires that a student register for more than 17 credits in a particular semester.
Requirements for Premedical Study

Faculty of Arts and Sciences students who intend ultimately to enter the Faculty of Medicine must select and complete one of the regular degree programs given as Bachelor of Arts (four years including the Freshman year) or Bachelor of Science (four years including the Freshman year). Refer to the Admission section under the Faculty of Medicine in the graduate catalogue on pages 420-422.

Academic Rules and Regulations

For information on Academic Advisors, Categories of Students, Correct Use of Language, Grading System, and Graduation with Distinction and High Distinction, refer to pages 43-62 under General University Academic Information of this catalogue.

Regular Freshman Program

The freshman program requires the completion of 30 credits, whether or not the student remains in the Faculty of Arts and Sciences or transfers to another faculty. Students intending to major in a subject within the Faculty of Arts and Sciences may be accepted as provisional majors upon completion of 24 credits.

University Requirements

General Education

All FAS students must take a minimum of 33–36 credits of general education courses. Refer to the General Education section on page 45 under General University Academic Information of this catalogue.

English: All new students at AUB are placed in one of the English communication skills courses (ENGL 102, ENGL 203, or ENGL 204) on the basis of their score on the TOEFL or the AUB-EN (EEE) or the SAT Writing. A student placed in one of the courses in the sequence has to complete that course and all following courses. During the freshman year, students are required to take a minimum of 3 credits in English at level 200 or above (either ENGL 203 or ENGL 204 depending on placement). English 102 and ENGL 204 may be considered electives for freshman students to complete their Freshman program in addition to ENGL 203.

Arabic: All students who have been admitted to the Faculty of Arts and Sciences and whose native language is Arabic must satisfy the Arabic Language Requirement (ALR)—except those students who have completed their secondary education in a non-Arabic medium program and who receive exemption from the Office of Admissions. Students may apply for exemption to the Office of Admissions any time before pre-registration. Non-exempted students entering the freshman class must take 3 credits of Arabic at the 100 level, and the performance in this course (or in the two freshman Arabic courses, if taken) determines the required Arabic course at the sophomore level. Students who are exempted from the Arabic Language Requirement should replace this requirement by taking any 3-credit course in Humanities or any language course, including Arabic as a foreign language.

Lebanese students must also satisfy the requirements listed on page 41 of this catalogue in order for their freshman year to be granted the equivalency of the Lebanese Baccalaureate Part II.
**Faculty Requirements**

In order to complete 30 credits for the freshman class, every freshman student must take at least one course in each of the following areas of study: humanities, mathematics, natural sciences, social sciences, plus the departmental requirements that will allow her/him to qualify for a major beginning in the sophomore year. See Table 1 for the distribution of these requirements in the various academic units of the Faculty of Arts and Sciences and other faculties.

**Freshman Courses**

Students are recommended to take their electives from the following list of courses. Most of these courses have been specifically designed for, and are only open to, freshman students. Students who wish to take courses numbered 200 and above (not listed below) may do so exceptionally with the approval of their advisors. The freshman level courses listed below are arranged according to the areas of study.

**Humanities:** ARAB 101, ARAB 102, AROL 101, CVSP 110, CVSP 111, CVSP 112, ENGL 103, ENGL 104, ENGL 105, ENGL 106, ENGL 108, FAAH 150, HIST 101, HIST 102, HIST 200, PHIL 101, PHIL 102, SOAN 103

**Mathematics:** MATH 101, MATH 102, MATH 203

**Natural Sciences:** BIOL 101, BIOL 105, BIOL 106, CHEM 101, CHEM 101L, CHEM 102, CHEM 102L, CHEM 200, GEOL 101, GEOL 102, GEOL 103, GEOL 104, PHYS 101, PHYS 101L or PHYS 103, PHYS 103L, PHYS 200, and ENHL 200 from the Faculty of Health Sciences

**Social Sciences:** ECON 101, ECON 102, PSPA 101, SOAN 101, PSYC 101

**Electives:** As necessary to add up to a 30 credit total (e.g. CMPS 101). See Tables 2 and 3 for requirements to transfer into a major.

**Lebanese freshman students**\(^1\): Lebanese students who are admitted to the freshman class should check with their advisors at registration time to ensure that the number of credits and the types of subjects that they take during their freshman year are in compliance with the specifications of the Equivalence Committee of the Lebanese Ministry of Education. The equivalence committee requires that out of the 30 freshman credits, 9 must be in the humanities and social sciences with at least 3 credits in each of these two areas. The committee further requires that the 30 freshman credits should include 6 credits in the natural sciences and mathematics with at least 3 credits in the natural sciences.

**Courses Numbered 200 and Above**

Some courses numbered 200 and above are suitable for freshman students. Note, however, that these courses are also open to sophomores, juniors, and seniors and therefore may be more competitive than courses offered at the 100 level. Such courses include those that are freshman requirements (see above) and those that are listed in Tables 1 and 2 (refer to pages 129 and 130).

**Transfer to a Major**

Any student in her/his freshman year who is not on probation at the time of application may transfer into a major within the Faculty of Arts and Sciences upon completion of 24 credits and the departmental requirements as shown in Table 2.

---

\(^1\) Lebanese applicants to the freshman class (refer to page 38)
Transfer to other Faculties

Any freshman student who wishes to transfer to another faculty must complete the freshman program and the faculty requirements, as shown in Table 3. Students who successfully complete the freshman year are eligible to apply for admission to professional schools when the conditions listed in Table 3 are satisfied.

Graduation Requirements

Degrees of Bachelor of Arts and Bachelor of Science

The following are the graduation requirements for the degrees of BA and BS:

Residency and Total Credit Requirements

• A maximum of eight calendar years is allowed for graduation of students who begin with the freshman class; six calendar years for sophomores; four calendar years for juniors; and two calendar years for seniors. A student who fails to complete her/his degree program within these specified times must petition the Student Academic Affairs Committee for an extension of time.

• A minimum of seven semesters of residence is required beginning with the freshman class, or five semesters beginning with the sophomore class. For purposes of this requirement, two summer sessions shall be considered equivalent to one semester.

• Regular FAS students (non-transfer students) who wish to spend time at other recognized institutions of higher learning abroad may do so at any time before graduation provided they secure the permission of the Dean of FAS. Transfer of credits will be considered on a course-by-course basis. At least 45 credits should be completed at AUB after the freshman year.

• Transfer students from other recognized institutions of higher learning must spend the final three semesters and complete at least 45 credits at AUB. For purposes of this requirement, two summer sessions shall be considered equivalent to one semester.

• A minimum of 120 credits for students who enter as freshmen (90 of which should be courses numbered 200 or above) and 90 credits (in courses numbered 200 or above) for students who enter as sophomores.

Departmental Requirements

A minimum of 36 credits in the major department, in courses numbered 200 or above, of which a minimum of 30 credits must be numbered 210 or above; and a cumulative average of 70 in the major, plus any additional requirements set by the department. For the distribution of the requirements according to discipline, consult the matrices of the departments in each department entry.

A student must be admitted into her/his departmental major for at least the last semester prior to graduation.
Repeating Courses

A student may repeat any course irrespective of the grade s/he has received. A student who fails a required course must repeat the course at the earliest opportunity. No course may be taken more than three times without permission of the Student Academic Affairs Committee. When a course is repeated, the highest grade is considered in the calculation of the cumulative average. All course grades remain part of the student’s permanent record.

Faculty Requirements

General Education Requirements

In implementation of the General Education Requirements for all faculties, all FAS students should show competence in the basic intellectual approaches of fields of learning in four major disciplinary fields and should take: 6 credits in Natural Science, 12 credits in Humanities\(^1\), 6 credits in Social Science\(^2\), and 3 credits in Quantitative Thought. In addition, all FAS students are required to take 3 to 6 credits in English Communication Skills and 3 credits in Arabic Communication Skills. Refer to the General Education section on page 45 in the General University Academic Information section of this catalogue for the list of approved General Education courses.

All students in the Faculty of Arts and Sciences must take 3 to 6 credits of English communication skills courses as determined by their placement. A student must enroll in the required course in her/his first term and continue without interruption until s/he has completed all courses through ENGL 204. For example, a student placed in ENGL 102 must take three consecutive semesters of English (ENGL 102, ENGL 203, and ENGL 204: 9 credits) whereas a student placed in ENGL 203 must take two consecutive semesters (ENGL 203 and ENGL 204: 6 credits). A student placed in ENGL 204 is not required to enroll in any additional communication skills courses offered by the English department. Students whose test scores do not qualify them to be placed in ENGL 102 are required to take the Intensive English Course (IEC). For more information on the IEC, refer to page 34.

All Arabic-speaking students in the Faculty of Arts and Sciences (except those officially exempted) must fulfill the Arabic language requirement. These students are required to take, in addition to the Arabic course required of freshmen, one Arabic language or literature course. The Arabic Placement Test (APT) is optional. Students who opt not to sit for the APT will have to register in any approved General Education Arabic Communication skills course. The option of taking the APT will be open to students who think they may be too weak to follow coursework higher than the basic language course (ARAB 201A). Such students may sit for the APT to ascertain if their level of proficiency in Arabic is (not) appropriate for a higher course. This will be further ascertained during the course itself. Students exempted from the Arabic Language Requirement should replace this requirement by any 3-credit course in the humanities or any language course including Arabic as a foreign language.

All students in the FAS are required to take 12 credits of General Education Humanities courses. All students who wish to register in these courses should have demonstrated English language skills, which placed them in ENGL 203 or above. A minimum of 6 credits must be taken in the Civilization Studies Program (page 172). For details, refer to the Civilization Studies Program section on page 172 and General Education Requirements section on page 45; for a current list of General Education courses, see the Registrar website.

---

1. No more than two courses from the student’s major may fulfill this requirement (Archaeology, English, Fine Arts and Art History, History, Philosophy).
2. No more than two courses from the student’s major may fulfill this requirement (Economics, Education, Political Studies, Psychology, Public Administration, Sociology-Anthropology-Media Studies).
Other Requirements

- A student must complete a minimum of 18 additional credits outside their major department, exclusive of the university course requirements stated above and those of the normal freshman program.
- Grades of 70 or above in at least 50 credits of courses numbered 200 or above for students entering at the sophomore level. Students entering at the freshman level must obtain grades of 70 or above in at least 12 additional credits of courses numbered 100 or above.

Transfers

Students may transfer to majors within the Faculty of Arts and Sciences from outside the University, from another faculty within the University, or from one department to another within the Faculty of Arts and Sciences.

Applicants from outside AUB wishing to transfer to a major in FAS with junior standing should note the following conditions and requirements:

- The applicant must have completed the equivalent of 24 sophomore credits at the university from which they are transferring.
- The applicant must submit an application to the University Admissions Office along with all the course syllabi taken at their previous university or universities.
- Transfer admission is competitive and limited by the number of spaces available. Normally, successful applicants will have earned a minimum GPA of 3.0 or its equivalent.
- Courses successfully completed at a previous university or universities are transferred provided they earned a grade equivalent to the AUB grade of 70 in each of the courses for which transfer credit is requested.
- For placement in (or exemption from) the Communication Skills Program, a student may petition for course equivalence by presenting relevant documents to the Department of English. If a student has not taken any courses equivalent to those offered within the Communication Skills Program, the student should be placed in the appropriate course based on her/his test scores (EEE, TOEFL, or SAT Writing), according to the same guidelines normally followed for newly admitted non-transfer students.
- Students who have transferred must complete at least 45 credits at AUB out of which a minimum of 21 credits should be in their major department for fulfillment of graduation requirements.

AUB students from other faculties wishing to transfer to a major in FAS should note the following conditions and requirements:

- The applicant must have completed at least two full semesters (minimum 24 credits) of coursework at AUB.
- The applicant must have attained a minimum cumulative average of 70.
- The applicant also must have attained a minimum average of 70 in all courses taken in FAS (must be at least 15 credits).
- The applicant must have met the requirements for her/his prospective major (see Table of Requirements on page 137).

AUB students wishing to transfer from one major to another in FAS should note the following conditions and requirements:

- The applicant must have completed two full semesters of work in their current major.
• The applicant must have met the requirements for her/his prospective major (see Table of Requirements on page 137).

AUB Non-Degree Students (NDS) wishing to apply for regular status should note the following conditions and requirements:

• The applicant must submit an application to the Office of Admissions.

• The applicant must have completed the equivalent of the sophomore year at the college or university from which s/he is transferring (24 credits or the equivalent).

• Grade requirements for transferred courses offered by other faculties at AUB follow the guidelines set by the relevant faculty. All final admissions decisions will depend on the availability of places in the major to which the student applies.

• Courses successfully completed at AUB by a non-degree student may be considered for admissions purposes. Once the student is admitted, the credits for those completed courses may be transferable towards the student’s regular degree (required courses with a minimum grade of 70 and elective courses with a minimum grade of 60).

• Courses successfully completed at a previous university or universities are transferred provided the student earned a grade equivalent to the AUB grade of 70 in each of the courses for which transfer credit is requested.

Double Major
Refer to page 47.

Dual Degree
Refer to page 47.

Second Degrees
Refer to page 48.

In coordination with the Registrar, the Undergraduate Admissions Committee decided to institute a new policy according to which up to 6 credits from another institution can be transferred by students seeking a second undergraduate degree. The committee notes that this policy will guarantee a minimum residency of one academic year, together with the equivalent of a regular load of a minimum of 12 credits per semester. Of course, all departmental requirements on minimum grades and so on will be applied to those courses to determine if they are eligible to be transferred.

Majorless Status

A student in good academic standing who has not yet chosen a major or is in the process of selecting a new major will be given the status of majorless. A department who opts to drop a student from her/his major must communicate this decision to the Student Services Officer in the Office of the Dean. A student who opts to change her/his status to majorless must communicate this decision to the Student Services Officer in the Office of the Dean through her/his academic advisor and/or department chair. All students should be admitted to a major by the end of their junior year. A student who wishes to join a new major must also complete the Departmental Transfer Form and submit it to the Office of the Dean, provided the student meets the requirements for admission to the new major.

Directed Study

A student with an average of at least 85 in her/his major at the beginning of the senior year may elect to pursue a course of directed study. Students with averages below 85 may be admitted to directed study at the discretion of the department.

Students who elect a course of directed study choose their subject of directed study in consultation with a faculty member selected by the student with the department’s approval. The directed study may consist of independent research, original creative compositions, or directed reading; and includes the presentation of a report or thesis.

Tutorials

Students can register for a single tutorial of up to 3 credits during their final year at AUB, after securing the permission of their department. Grades for tutorials are either P (Pass) or F (Fail).

Dean’s Honor List

To be placed on the dean’s honor list at the end of the semester, a student must:

• be carrying at least 12 credits;
• not be on probation;
• have passed all courses and attained an overall average of 85, or be ranked in the top 10 percent of the class and have an overall average of 80;
• have no failing or incomplete grades in courses that carry credits;
• not have been subjected to any disciplinary action within the University during the semester; and
• be deemed worthy by the dean to be on the honor list.

Attendance and Withdrawal from Courses

• Students are expected to attend all classes, laboratories, or required fieldwork. All missed laboratory or fieldwork must be made up. A student is responsible for work done, and for any announcements made, during her/his absence.
• Students who, during a semester, miss more than one-fifth of the sessions of any course in the first ten weeks of the semester (five weeks in the case of the summer term) can be dropped from the course. A faculty member who drops a student from the course for this reason must have stated in the syllabus that attendance will be taken.
• Individual instructors may, at their discretion, keep attendance records. Instructors who drop students for excessive absence are requested to submit the attendance record for the whole class as well as the attendance policy which has been announced in the syllabus of the course distributed to students at the beginning of the semester and kept on record in the department.
• Students who withdraw or are dropped for excessive absence from a course will receive a grade of “W”.
• Students who do not withdraw or cannot be dropped for excessive absence from a course will receive a grade of 40.
• Students can withdraw from registered courses, not later than 10 weeks (five weeks in the summer term) from the start of the semester, provided that their credit load during the semester does not drop below 12 credits.
• A student cannot withdraw, or be withdrawn, from a course after the deadline for withdrawal from courses mentioned above, unless approved by the Student Academic Affairs Committee.
• Students cannot withdraw, or be withdrawn, from a course if this results in the student being registered for less than 12 credits without prior approval of the Student Academic Affairs Committee.

Examinations and Quizzes

Students who miss an announced examination or quiz must present an excuse considered valid by the instructor of the course. Unless stated otherwise in the course syllabus, the course instructor should then require the student to take a makeup examination. Makeups for quizzes and midterms as well as class assignments must be completed before the final grade of the course is issued at the end of the semester. Only medical reports and/or qualified professional opinions issued by an AUB employee, AUB Medical Center (AUBMC) doctor, or by the University Health Services will be accepted. If there is a question about the validity of any excuse presented by the student, the matter will be referred to the Student Academic Affairs Committee. Instructors should make sure that there is no time conflict between an exam and a regularly scheduled course.

Grading Policies, Incomplete Grades and Makeup Examinations

For information on the Grading System, refer to General University Academic Information.

All faculty members in FAS are to submit their final course grades electronically no later than 72 hours after the final examination.
The work for a course in FAS must be completed by the date on which the semester ends. Students who have completed all the course work but missed the final exam or failed to submit papers or projects in lieu of the final exam (depending on course requirements) may be given an incomplete grade upon submission of a valid excuse to the course instructor. The procedures related to such cases are as follows.

Incomplete course work is reported with an “I” followed by a numerical grade that reflects the evaluation of the student by the end of the semester. This evaluation should be based on a grade of zero for all missed work and reported in units of five. Typically, an incomplete grade ranges from I40 to I70. The “W” option is not available to faculty members; all course withdrawals should be entered by the Office of the Registrar. The grades “X”, “blank” or “I” without a numerical grade should not be reported. Only the Student Academic Affairs Committee can grant permission to make up for missed final exams, papers or projects in lieu of the final exam. To obtain permission to complete the work in a course, a student must submit a valid excuse to the instructor of the course. Whenever possible, medical excuses should be issued by the University Health Services (UHS) or the AUB Medical Center (AUBMC). If the reason for the incomplete work is considered valid by the course instructor, the instructor should then submit to the Student Academic Affairs Committee a “Request for Make Up for Incomplete Work” (Form 1, downloadable from the FAS website under “Academic Forms”). This request must be submitted within two weeks of the scheduled date of the missed final exam. Late requests will not be entertained without a valid justification. The Student Academic Affairs Committee will promptly inform the course instructor whether the request is approved or not. If the request is approved by the Student Academic Affairs Committee, the student will be permitted to complete work for the course and will need to do so within four weeks of the start of the next regular semester (excluding summer, since the summer session is NOT considered a regular semester). The time and date of make-ups, within the period specified above, are set by the course instructor after consulting with the student involved. It is the responsibility of the student to find out from her/his instructor the specific dates by which the work should be completed. After the course work is completed and evaluated by the instructor, the latter should report the new course grade on the “Authorized Change of Grade” (Form 2, downloadable from the FAS website under “Academic Forms”). This form should be sent along with the approved Form 1 to the Student Academic Affairs Committee within 72 hours after the student has completed the course work. The grade change will be considered by the Dean of the Faculty (upon the recommendation of the Student Academic Affairs Committee) and the new grade will be reported to the Office of the Registrar. Failure to complete incomplete work within the period of four weeks will result in dropping the “I” on the reported course grade, and the available numerical grade becoming the final grade in the course. If Form 1 is not submitted in due time (two weeks after the scheduled date of the final exam) or if the request is turned down by the Student Academic Affairs Committee, the “I” on the reported course grade will be dropped. The available numerical grade becomes the final grade in the course.

The procedure to be followed in requesting to change a grade that was erroneously reported on the AUB SIS is as follows. The “Request for Change of Grade” Form 3 (downloadable from the FAS website under “Academic Forms”) should be completed by the course instructor immediately when the error is found. The form should then be signed by the Chair of the Department offering the course and submitted to the Student Academic Affairs Committee along with a copy of the original class list with all grades given and the detailed course grading scheme. The course instructor should specify on the form the nature of the error made. The Student Academic Affairs Committee will take note of this change of grade, which will be immediately reported to the Office of the Registrar. Requests for change of grade will not be considered after a period of four weeks from the beginning of the next regular semester.
Academic Probation

Departmental Probation and Dismissal from a Department

Students will be placed on departmental probation if their average in major courses drops below 70 in their first two semesters in the major. Departments will drop students from their major in case they have an average below 70 in the major courses at the end of their third regular semester in the major.

Placement on Academic Probation

• Students entering AUB at the freshman level are placed on academic probation if their overall average is less than 67 at the end of their second regular semester, less than 68 at the end of their third or fourth regular semester, 69 at the end of their fifth or sixth regular semester, or if it is less than 70 in any subsequent semester excluding the summer term.
• Students entering FAS at the sophomore level are placed on academic probation if their overall average is less than 68 at the end of their second regular semester, less than 69 at the end of their third or fourth regular semester, or less than 70 in any subsequent semester excluding the summer term.
• Students entering FAS as transfers at the junior level from other recognized institutions of higher learning are placed on academic probation if their cumulative average is less than 69 at the end of their second regular semester in FAS, or if their semester average is less than 70 in any subsequent semester excluding the summer term.
• It is to be understood that the semester in which the student is considered to be ‘on probation’ is the semester that immediately follows the semester in which the student has earned the grades leading to that placement.
• For evaluation purposes, the minimum number of credits at the end of the second regular semester at the University should be 24 including all repeated courses and 12 in each subsequent fall or spring semester including all repeated courses. Students carrying a reduced schedule of less than 12 credits are not subject to probation regulations until they have accumulated a minimum of 12 credits including the summer session.
• Courses/credits taken during a summer term are counted toward the semester average of the next regular semester. If the number of credits taken in any one regular semester is less than 12 (for approved reasons), courses/credits taken during that semester are counted toward the semester average of the next regular semester (the highest grade for repeated courses is considered in computing the average).
• Credit for incomplete courses will be included in the semester in which the incomplete courses were taken. The evaluation for that semester will be carried out as soon as the grades for the incomplete courses have been finalized.
• If a student on probation drops the entire semester, then that semester is not counted for continued probation purposes.
• Students who register in intensive English for one semester are not subject to probation during that semester.

Removal of Probation

Probation is removed when the student attains a semester average that exceeds the applicable averages indicated above. The student is off probation during the semester following the one in which such grades are earned.

Probation Duration: Probation should be removed within two regular semesters, excluding summer, after the student is placed on probation, or when the student completes her/his
graduation requirements (see Graduation Requirements on page 133). Students on probation are advised to repeat courses for which they have obtained failing or low grades.

**Credit Load for Students on Academic Probation:** The load of a student who is in her/his first semester on probation shall not be fewer than 12 or more than 17 credit hours. The load of a student who continues on probation beyond one semester shall neither be fewer than 12 nor more than 13 credit hours. During a summer session, all students on probation shall carry loads of no more than 7 credits.

**Dismissal from the Faculty**

A student is dismissed from the faculty for any of the following reasons:

- if the student's overall average is less than 60 at the end of the second regular semester
- if the student fails to clear academic probation within two regular semesters, excluding the summer term, after being placed on probation
- if the student is placed on academic probation for a total of four regular semesters (a student can be dropped for this reason even if s/he is in the final year at AUB)
- if the student is deemed unworthy by the faculty to continue for professional or ethical reasons

**Application for Readmission**

When, in accordance with university regulations, a student is dropped, the implication is that s/he is not qualified to continue her/his education at AUB. Consideration for readmission is given only if, after spending at least one year at another recognized institution of higher education, the student is able to present a satisfactory record with no failure. The student must have achieved a grade equivalent to the AUB grade of 70 in each of the courses for which transfer credit is requested. Transfer credit is considered after departmental evaluation of a student’s coursework.

The foregoing regulations on readmission also apply to students dropped from other AUB faculties who apply for admission to the Faculty of Arts and Sciences.

Readmission of students dropped from the Faculty of Arts and Sciences by the Student Academic Affairs Committee requires the approval of the latter committee, whereas readmission of students dropped from other AUB faculties to Arts and Sciences requires the approval of the Arts and Sciences Undergraduate Admissions Committee. Before action is taken on any application for readmission, the committee concerned will seek the recommendation of the prospective department.

Students who withdraw voluntarily for more than two years are required to submit a readmission form with all necessary documents for approval by the Undergraduate Admissions Committee.

Students who were dropped from the faculty for poor academic performance and who have spent one year at another University will be readmitted on strict academic probation on the following conditions: to take 12-13 credits and remove probation by achieving a semester average of 70 or more at the end of the semester in which they were readmitted. Failure to meet any of the conditions above will lead the student to be permanently dropped from the faculty.
Failure

If a student fails a course, no re-examination is permitted. If a course is required for graduation, a student failing the course must repeat it.

A student may not register for a course more than three times, including withdrawals; for the third registration, permission from the student’s academic advisor and the academic unit concerned is required.

The Arts and Sciences Student Academic Affairs Committee may consider a fourth registration under special circumstances.

A student who at the end of her/his senior year fails to attain a cumulative average of 70 in her/his major field is required to take additional courses in that field or to repeat courses in which the student has scored low grades, provided s/he is permitted to continue at the University.

Summer Session

Maximum Load

The maximum academic load during a regular summer session is 9 credits (7 credits for students on probation).

Degree Courses

The degree courses offered during the summer session are identical in standard and content to those offered during the fall and spring semesters.

For information on Non-Degree Courses and Summer Orientation Programs, refer to the sections on Department of Education and AUB Extension Programs in this catalogue.

Courses

FAS Numbers Preceding Course Titles

- Freshman Courses: numbered from 101 to 199 are ordinarily taken during the freshman year and may be counted toward graduation but only as part of the freshman program.
- Introductory Courses: are from 200 to 209 and may be counted toward graduation whenever taken but cannot be considered as part of the 30 credits above 210 required in the major field.
- Advanced Undergraduate Courses: are from 210 to 299 and may be counted as credits in the major field.
- Graduate Courses: are from 300 to 499 (available to senior undergraduates in good standing and upon securing the consent of the department).

Odd-numbered courses are normally offered during the fall semester whereas even-numbered courses are normally offered during the spring semester.
Numbers Following Titles of Courses

The first number following the title of a course indicates the number of class hours given each week.

The second number indicates the laboratory or practice hours required each week. The third number indicates the number of credit hours applied toward graduation. The credit assigned to each course is stated for the semester. Each hour of laboratory is considered a 1/3 to 1/2 credit hour.

Courses marked annually are offered at least once during each academic year. Other courses marked alternate years and each semester are given accordingly. When frequency of offering is not indicated, the course is offered at the discretion of the department.

Course Descriptions

For those requiring additional information, more detailed course descriptions are available in the individual department sections of this catalogue.

Courses Offered by Other Faculties

Students in the Faculty of Arts and Sciences may also take, for credit, elective courses offered in the Faculties of Medicine, Engineering and Architecture, Agricultural and Food Sciences, and Health Sciences. However, FAS students cannot be given academic credit for the following courses: NFSC 220, AVSC 279, and AVSC 280. With regard to courses taken in other Faculties, all prerequisites must be satisfied. Some courses may require prior approval from the Faculty concerned.
