

NOTE TO ALL AUB STUDENTS

AUB has always been a leader in implementing new teaching approaches in Lebanon and the region. Since the beginning of the Academic Year 2009-10, some course-sections across all faculties are being taught in a Blended format.

Blended courses combine traditional Face-to-Face instruction with online learning, naturally reducing the face-to-face lecturing time and replacing it with interactive online activities.

All instructors teaching their course-sections in a Blended format will notify you at the start of the semester and will provide you with the necessary information and guidance.

Starting this Spring Semester 2011-12, all Blended courses will be flagged as such in AUBsis. When you register for your courses, you will notice a new column named "Instructional Method". All Blended courses will be categorized as "Blended" in that column. You can click on the word "Blended" to read an explanation of Blended Learning.

Blended Courses for the Spring 2011-12 semester

BIOC 255 – Julnar Usta	EECE 503 – Mihran Gurunian	HMPD 311 Mohammad Alameddine
