In Coordination with BI-SAM Recruitment presentation

WHAT?

Business intelligence solutions for asset management

With our worldwide presence, from **New York to Hong Kong including several offices in Europe**, we are an international software vendor **accelerating its growth**. Our performance attribution and reporting software is utilized by blue-chip clients (Amundi, BNP PAM, Schrodgers, etc.) and our turn-over has doubled over the last years.

Since our very **beginning in 2000**, our executive team has gained the trust of international investors therefore getting their support for our international development. We have also strengthened and organized our company hiring specialists with an in-depth knowledge of financial markets software business. Going forward one of our aim is **diversifying our solutions**.

We continually invest 30% of our revenue into R&D to maintain and increase our innovation and development effort. Today, we are currently **creating several Development Engineers positions within our R&D team in Paris**.

WHEN?

Monday, June 20, 2011 from 11:00 am till 12:00 noon

WHERE?

West Hall, Auditorium B

WHO?

MBA, Electrical/Computer/Mechanical Engineer, Engineering Management with emphasis in Java development, quantitative analysis and finance.

We are looking for a MSc graduate with at least 2 to 5 years work experience developing in Java for financial markets, ideally in the asset management area. Should you want to join a team with development methods that will give you the opportunity to stretch your strong technical skills, then the complex functional area will give you the opportunity to continue learning and developing your career. Professional technical English is a MUST in light of the international environment of these positions.

HOW?

Since the capacity is limited, you need to register your name before Friday, June 17, 2011 by sending an email to Dr. Maryam Ghandour specifying the following information:

1- Subject Line: **Bi Sam**

2- Name: ID:

Class:

Major:
