Evidence-based Healthcare Management Unit  
Cross-disciplinary Unit  
at the American University of Beirut
**Mission**
To generate knowledge and evidence that is necessary for the effective and efficient application of management principles within the health care industry

**Vision**
To become the facilitating hub in the region for evidence-based health care management through knowledge generation, translation and transfer

**Services**

**Research Partnership**
We develop research partnerships to conduct cutting-edge research in healthcare management

EHMU is a cross-disciplinary research unit, based in the Faculty of Medicine at AUB, which fosters collaboration between departments and faculties at AUB

EHMU aims at encouraging cross-disciplinary research, and amalgamating the diverse areas of expertise and applying them into the health care sector

Faculty members, from all faculties, are encouraged to contact us should they wish to conduct non-clinical research at AUBMC

**Post-graduate Mentorship**
We supervise master’s students (AUB or non-AUB) on their thesis/field projects

EHMU members provide sufficient collaborative supervision for thesis/field projects that focus on the health care industry

Graduate students are encouraged to contact us if they are interested in health services research

**Management Support**
We provide evidence-based solutions to management operations at AUBMC and the wider healthcare sector

The aim is to promote, through research and training, decision-making in management that is based on best current evidence while taking into account the needs and values of the parties involved

Departments at AUBMC are encouraged to contact us should they need assistance in making better informed managerial decisions

**Internship Program**
We provide candidates with training and development opportunities in applied research

EHMU offers volunteers, experience in various aspects of evidence-based health care management research
