Dear AUB Community,

In recognition of the impact of this senseless tragedy that took place today in Beirut's southern suburbs, in sympathy with many lives lost, including those of two of our own much valued staff, and in compliance with government recommendations to close all public and private educational institutions, AUB will be closed for students, faculty, staff and all non-essential personnel. Accordingly, Spring registration will be postponed until Monday and all exams will be postponed until next week. The AUB medical center will remain open to serve all of our patients, including any of those wounded in this monstrous attack.

Sincerely,

Fadlo R. Khuri, MD

President
