The Department of Pediatrics and Adolescent Medicine offers clerkships to medical students. The clerkships concentrate on those aspects of children's and adolescents healthcare that are important to any physician, including the management of healthy and sick children; peculiarities of disease in infancy, childhood, and adolescence; nutrition growth and development. These clerkships also concentrate on the importance of combining preventive with curative medicine. Graduate training is offered to physicians leading to specialization (residency) in pediatrics over a two-year period.

PEDT 246 Clinical Clerkship 35.360.
Daily work in the Outpatient Department (OPD) and rotation in the private service and the nursery. Offered to third year students. Two months.

PEDT 267 Clinical Clerkship 0.360.
A clerkship consisting of daily work in the hospital. Offered to fourth year students. Two months.

PEDT 268 Elective in Pediatrics 0.180-360.
Clinical electives are open to fourth year medical students. Laboratory research electives are open to students at all levels. Exposure of students to laboratory research in developmental neuropharmacology, molecular biology, infectious diseases, basic cardiology, and epilepsy, or to a special area of clinical pediatrics of the student's choice, including pediatric cardiology, neurology and hematology-oncology, and neonatal intensive care. One to two months.
PEDT 287  Internship  0.786.
A two- to three-month rotation each in the hospital wards, ambulatory services, or newborn nursery.

PEDT 288  Straight Internship  0.2882.
Interns spend 11 months in the Department of Pediatrics and Adolescent Medicine at the hospital (PL-1).

**Weekly Conferences**

Ward rounds, x-ray conferences, journal clubs, grand rounds, chairperson’s rounds, morning report, and specialty conferences (adolescent medicine, neonatology, hematology/oncology, morbidity and mortality conference, other house staff lectures).
