BRIEF FIRM PROFILE/DESCRIPTION:

We assist those in urgent need anywhere, anytime, no matter what the conditions, providing lifesaving health care and health care-related emergency services—often within hours.

As conditions ease, we work with local leaders to rebuild stronger. In non-emergency settings, our focus is development. Through our training programs, we pass essential skills into local hands, preparing those in disaster-prone areas to better withstand adversity. Embedding these skills into the community lies at the heart of what we do: build self-reliance. It gives people hit by tragedy a sense of ownership over their own recovery and the ability to shape their own future as they rebuild. And wherever it occurs, it is an investment that benefits us all because it prepares local residents to be their own best First Responders should disaster strike.
