The Department of Diagnostic Radiology offers selective clerkships to medical students, electives to interns and residents, and a five-year residency training program.

**DGRG 267      Selective in Diagnostic Radiology      22.158**  
This selective involves attending morning tutorials, reporting and scientific activities within the department. *Open to fourth year medical students. 4 weeks.*

**DGRG 268      Elective in Diagnostic Radiology      0.180**  
Similar to selective in Radiology, open to fourth year medical students within and outside AUB who would like to consolidate their knowledge in radiology or were not granted radiology selective. *4 weeks.*

**DGRG 287      Student Internship      0.262-1048**  
Elective clerkship open to interns and residents. This internship involves attending tutorial and read out sessions. *Duration 1-2 months. 1 month (Non-radiology interns & residents). 2 months (AUB future radiology residents).*

## Weekly Conferences

The Department of Diagnostic Radiology organizes teaching activities divided into 13 organ based blocks: General Radiology, Emergency Radiology, Ultrasound, Breast, Gastrointestinal Radiology, Genitourinary Radiology, Neuro Radiology, Vascular Intervention Radiology, Musculoskeletal Radiology, Pediatric Radiology, Nuclear Medicine, Cardiothoracic Radiology and Cardiac Imaging.
