Associate Professor of Public Health Practice:	Kassak, Kassem
Instructor:	Germani, Aline
Instructors of Public Health Practice:	Abou Samra, Clara; Bou Karroum, Lama; Fadlallah, Racha; Jamal, Diana

Departmental courses are designed to introduce students to the principles and practices in the field of health management and policy, with an emphasis on managerial functioning in healthcare organizations. The department offers a few undergraduate courses in health administration and contributes to courses catered to major and minor programs.

Course Description

HMPD 204 Introduction to Health Services Administration 3.0; 3 cr.

This course offers an in-depth examination of the diverse components that form a health system. It provides an opportunity to describe and analyze how provider settings, health care personnel, financial resources, technology, and the government interact to meet and serve the health care needs of populations.

This course includes a “service learning” component through which students will engage with a predetermined organization to identify and address a public health problem. This opportunity will allow students to “share” and “receive” knowledge and expertise leading to enhanced learning among students and benefit to the chosen organization.
