

Living on Campus

Important Health Information, Spring 21-22

→ **Prior to Check-in**, you are expected to share with us the result of a negative PCR test conducted within a period that does not exceed 72 hours from expected check in date, in addition to the proof of vaccination (certificate of Covid-19 record)

For residents coming from abroad, two negative PCR test results are required instead of one: the first being conducted abroad/ upon departure from home country and the second as completed upon arrival to Beirut (at Rafic Hariri Airport or at any local lab).

For residents who have landed in Lebanon at an earlier time (period exceeding 14 days), only a local PCR test result is required.

Note: It is favorable to share the required records above on a working day (Monday-Friday before 3:00 p.m.) should any resident wish to check-in on a weekend day.

→ **To ensure maximum safety to our students, the curfew set hours for all residents is (12:00am-5am).**
In case of any changes we will update you in due time.

→ **If you tested positive for COVID-19 at any point of your stay at the residence**, please inform your head resident immediately in order to be moved to the Murex isolation unit
Once your physician requests a PCR test you will be requested to move to one of the quarantine rooms until the PCR test is out.

→ **If a new pandemic emerged**, we will follow the government's recommendations and AUBMC committee guidelines.

In case emergency checkout is needed, please make sure to clear your items from the room either take them with you or properly store them at the hall's storage room with proper labeling and return all room keys at the reception upon check out.
