

## How to Send Your SAT Score Report to AUB – Office of Admissions

When you are applying to AUB and need to send your SAT scores, or anytime you want to send your SAT scores to AUB, please send your scores both **unofficially** (sent by you) and **officially** (sent by the College Board).

Follow the steps below to quickly share your SAT scores with us unofficially (A) and also to request the official score reports to be sent directly to the AUB Office of Admissions from the College Board (B). So please follow **both steps (A) and (B)** below:

### A) To send us your **unofficial** SAT score report:

- Login to <https://studentscores.collegeboard.org/viewscore>
- At your Dashboard, click your **most recent** SAT (includes all previous SAT scores) “View Details” button
- Click on the “Download Report” button, so you will obtain the **full report in PDF format**
  - If you already submitted your application and received an AUB application ID#, then e-mail the PDF report to [admit@aub.edu.lb](mailto:admit@aub.edu.lb) and make sure to write your AUB application ID#, so we can complete your file
  - If you did not submit your AUB application yet, then attach the PDF report to your application form
- Any format different from the above (**PDF file as downloaded from College Board**) will NOT be accepted.

### B) To send us your **official** SAT score report:

- Login to <https://studentscores.collegeboard.org/viewscore>
- At your Dashboard, click “Send Your SAT Scores”
- Once you reach the search for colleges - select “More search options”
- At the code field, enter AUB ETS Code **0902**
- Select “American University of Beirut, New York, NY” and add it to “Your Selected Recipients”
- Finalize your send score request (keep the default of sending “All Scores”)

### **Important Note:**

We will use the unofficial copy temporarily to complete your file while waiting to receive the **Official SAT report** sent to AUB (ETS Code 0902).
