

For Immediate Release

## **AUB to unveil a new environmentally-friendly technology to recycle expired pharmaceuticals**

Beirut, Lebanon- 02/07/2015 - The American University of Beirut Faculty of Engineering and Architecture, in collaboration with Cedar Environmental, is organizing a seminar, entitled “An environmental method to recycle expired pharmaceutical pills,” during which the results of a two-year research study will be presented.

The study was a collaboration between faculty from the chemical engineering department and Cedar Environmental, to develop an environmentally-friendly technology to recycle expired pharmaceutical pills.

The seminar will take place on Tuesday July 7, 2015 from 12 noon to 2 PM at Issam Fares Auditorium, AUB Campus.
