## **AUB to hold international conference on math and science education**

Beirut, Lebanon- 13/03/2013 -The Science and Math Education Center (SMEC) at the American University of Beirut is holding its fifteenth annual international conference for science and math educators on **March 16, 2012**.

The all-day conference will open in Assembly Hall at **8.45am** and will highlight the latest teaching methods for educating school-age children in math and science during workshops and seminars that will be held in West Hall.

The conference also will share new research findings and new strategies and technological tools for teaching science and mathematics, and will include two keynote speeches by educators from the United States and Sweden, who will talk about new perspectives in science teaching and developing socially responsible math education.
