

CAMPAIGN UPDATES

February 18, 2022

Dear AUB Community,

As per the [recent email](#) of the COVID-19 Expert Committee we would like to remind our faculty, staff, and students of the importance of obtaining the booster shot before **March 1, 2022**.

For those who received their booster shot, please send your updated vaccination certificate to vaxwg@aub.edu.lb.

The AUB Immunization Center is open for anyone aged 12 years and above through the booking system or through walk-in (ID, passport or driving license is required). In the coming weeks, the AUB Immunization Center will be open from 8:00 am until 2:00 pm, Monday to Friday.

As per the recent agreement between AUB's Vaccination Working Group and the Lebanese Ministry of Public Health please note the following:

Anyone aged between 12 to 17 years

The "AUBe Vaccinated Campaign" will continue to administer Pfizer BioNTech vaccine for the three doses for anyone aged between 12 to 17 years.

Anyone aged 18 years and above

First Dose

We will administer Moderna Spikevax vaccine for the first dose for anyone aged 18 years and above.

Second Dose

If your first dose was Pfizer BioNTech or Moderna Spikevax vaccine, wait for an SMS from the COVAX MOPH platform for your second dose appointment date.

Third Dose

AUB is also providing Moderna Spikevax vaccine booster shots (third dose) for anyone aged 18 years and above, at least four months after they received their second dose.

Please make sure to register on the COVAX MOPH platform first in order for you to be able to take the vaccine. You will be asked to show the SMS (text message) that you will receive from the MOPH indicating your effective registration.

To learn more about the AUBe Vaccinated Campaign and how to schedule an appointment visit the [webpage](#).
