

CAMPAIGN UPDATES

September 19, 2021

Dear AUB Community,

In the past two weeks, the “AUBe Vaccinated Campaign” opened to the extended community, administering **6,995 doses**. Since the beginning of the campaign, the Immunization Center administered **36,020 doses**.

This coming week, the AUB Immunization Center will be open **from 8:00 am until 5:00 pm** and the vaccination drive will focus on individuals who should receive their **second dose** - which means they had received their first dose in the past three weeks or more.

If you are among these individuals, you should have already received the automated text message from the MOPH. Please disregard it and expect to receive a **text message** from AUBMC with a correct date and time for your second dose appointment.

Once you receive this text message, visit the AUB Immunization Center (ACC building) on the date and time indicated and bring with you:

- A valid identification document (driving license, passport, identity card, residency permit)
- For the AUB community: AUBID for faculty, staff, and students
- The text message indicating your registration on the COVAX platform from the MOPH
- The second dose invitation SMS received from AUBMC or COVAX or the booking confirmation email from the AUB Vaccination Working Group

The AUB Immunization Center will continue to serve the **unvaccinated** AUB faculty, staff, and students **from 8:00 am until 5:00 pm** Monday to Friday, through **walk-in**.

The vaccination drive will **not** be open to **dependents** and members of the **extended community**. However, it will resume at a later date.
