

October 2, 2021

Dear AUB Community,

This week the “AUBe Vaccinated Campaign” continued to administer **2,226 doses**, reaching a total of **44,103 doses**. More than **95%** of the AUB community, including students, faculty, and staff, is now vaccinated, a success that gives hope to the reopening of the AUB campus for in-person learning.

Next week (October 4-8, 2021), the AUB Immunization Center will be open from 8:00 am until 4:00 pm, Monday to Friday, for the **extended community**, only through the following [booking system](#).

The extended community includes:

- Any AUB alumni and their dependents, such as parents and partners/spouses (AUB Alumni ID is required)
- **Any patient who has ever visited AUBMC** for operations, emergencies, or visits in inpatient/outpatient clinics or departments; individuals will be asked to provide their mobile number, or Medical Record Number (MRN), or AUBMC patient card, or show their MyAUBHealth application
- Domestic workers (residency permit is required for foreign workers)
- Individuals with disabilities and special needs (above the age of 12)
- Taxi drivers and public transport drivers (public driving license is required)
- Adults aged 45 years and above

The AUB Immunization Center will continue the campaign for the **dependents of AUB faculty, staff, and students** (spouses, children 12 years old and above, parents, grandparents, siblings-in-law, children-in-law, and household members) from 8:00 am until 4:00 pm, Monday to Friday, only through the following [booking system](#).

The AUB Immunization Center will continue the campaign for **unvaccinated AUB faculty, staff, and students** through **walk-in** immunizations. There will be no walk-in immunizations for the other categories.

Those who already received their first dose will receive an SMS from the **COVAX platform** for their **second dose** appointment date (please come between 8:00 am and 4:00 pm).
