Please join on the following WebEx Link: <https://bit.ly/2Q329K9>

TAMU @ Energy Institute, GERB 315 | AUB @ Michel and Sherine Bayoud Lecture Hall, FAFS

## About the webinar:

Researchers share their experience of forming an interdisciplinary team at Texas A&M University's Water-Energy-Food Nexus Initiative (WEFNI) to address a resource hotspot in San Antonio, Texas. The webinar will include the presentation of 10 research articles, recently published in a "Science of the Total Environment" special issue, which documents this experience, and highlights lessons learned, potentially transferable to addressing other resource hotspots globally.
