

ACCELERATE YOUR FUTURE

Are you ready for an internship programme unveiled by one of the world's boldest and most influential multinational tech events?

Welcome to GITEX High Flyer by Ai Everything x GITEX.

The region's one and only springboard to launch the world's most potent tech talents and as-yet-undiscovered geniuses for the betterment of industry, society and the world.

The programme will place up to **100 students** into some of the world's biggest corporate and government entities for a life-changing **internship** with intensive mentorship all the way, from application until the programme culmination.

Students can participate individually or as a team or both but the goal remains the same – ultimate experience, exposure and training for excellence from the best in the business.

Let's get going then!

INDIVIDUAL TRACK THE CHALLENGE - THEORETICAL

[REGISTER HERE](#)

Undergrads, Masters or PhD students must show how tech solutions, artificial intelligence and/or data science can be applied to improve the lives of the region's residents.

Each participant must develop an idea that applies AI and Data Science technologies to one of the following themes: **Happiness, Healthcare, Education, Future Mobility**

FIRST SUBMISSION

Deadline 20 May 2021

1

Submit a maximum 2-minute video introducing your entry and addressing:

- What is the problem the participant is looking at?
- Why is solving the problem important for the region or country of focus?
- How can AI and/or Data Science technologies be used to solve the problem?

SECOND SUBMISSION

Deadline 30th September

3

Shortlisted individuals must present a max 5-minute video, a project document (max 10 A4-pages) and a personal mission statement (max 300 words – under the title How will I change the world).

- Final submission should include what tech solutions (AI/Data Science etc) will be used to support the idea

SHORTLISTED FOR MENTORSHIP

by 26th May 2021

2

All the submitted videos will be evaluated, then approximately 60-70% of entries will be shortlisted to move to round two, with the guidance of a mentor to refine and polish the entry in advance of the second submission.

FINAL PRESENTATION AT THE EVENT

18th October, Ai Everything x GITEX
at Dubai World Trade Centre

4

Shortlisted individuals from round two must make their final idea pitch on stage at the Ai Everything x GITEX event, in one of the main summit theatres

TEAM TRACK

THE CHALLENGE - TECHNICAL

[REGISTER HERE](#)

Undergrads, Masters or PhD students must work in teams of 2-4 to develop a mobile app using a chosen data set - for example Bayanat, the open source dataset of the UAE government.

The app must apply AI and data science technologies to improve lives of the region's residents, focusing around the themes of: **Happiness, Healthcare, Education, Future Mobility.**

FIRST SUBMISSION

Deadline 20 May 2021

1

Teams must submit a maximum 2-minute video introducing your entry and addressing:

- The idea for the mobile app
- How the app will be using the chosen data set
- How the proposed app will improve the lives of the region's residents
- How the team members have the AI and Data Science skill to complete the project

SECOND SUBMISSION

Deadline 30th September

3

Shortlisted individuals must present a max 5-minute video, a project document (max 10 A4-pages) and a personal mission statement (max 300 words – under the title **How will I change the world.**)

- Final submission should include what tech solutions (AI/Data Science etc) will be used to support the idea
