

Alain Abi Ghanem, MD

I obtained my medical degree from Saint Joseph University in 2006. I then pursued a medical internship at Wayne State University in Detroit, MI (2007-2008) followed by a residency in Nuclear Medicine at the NewYork-Presbyterian Hospital / Weill Cornell Medical College in New York, NY (2008-2011) and a fellowship in Cancer Imaging and PET/CT at the Brigham and Women's - Dana Farber Cancer Institute / Harvard Medical School in Boston, MA (2011-2012). I also completed a residency in Diagnostic Radiology at the State University of New York in Syracuse, NY (2012-2015). After years of living abroad, I returned home where I am currently an Assistant Professor of Clinical Radiology at AUBMC and serve as the Director of the Radiology Residency Program. I am certified by the American Board of Radiology and the American Board of Nuclear Medicine. I am an avid teacher and a resident advocate. I enjoy interacting with residents, fellows and medical students on a daily basis. I value their scientific curiosity and their role in pushing the boundaries of knowledge. I am an active member of the American College of Radiology, Radiological Society of North America and Society of Nuclear Medicine and Molecular Imaging. My clinical interests include body imaging, novel PET radiotracers and radioactive therapy of lymphoma, thyroid and prostate cancers. My research interests include assessment criteria of tumor response, contrast-enhanced PET/CT in patients with cancer and artificial intelligence in chest imaging.
