

Ms. Abeer Dakik is an administrator and a full member of the Biomedical Institutional review board, where she has been working since 2009. Ms. Dakik earned her BS in Nursing and a Master's degree in Epidemiology from AUB. She now serves as an expert in regulatory matters that apply to human subject protection in biomedical research. She serves on different committees at AUBMC such as the quality advisory council and the radiation safety committee. Her experience covers the review of at least 1000 clinical research proposals from an ethical perspective.
