The Continuing Medical Education Office presents

Challenges in the Diagnosis and Management of Bleeding Emergencies

Date: September 28, 2016

Venue: Le Royal Hotel, Dbayeh, Lebanon
Overview
This activity will provide updated information on how to diagnose and manage congenital or acquired coagulopathies. There will be 2 sessions done in different areas in Lebanon: Chtaura and Beirut.

Location and Date
The second round will be held in Dbayeh on September 28, 2016 at Le Royal Hotel, Dbayeh, Lebanon.

Educational Objectives
After completing this activity, the participant will be able to:

- Describe the cellular-based model of hemostasis
- Interpret the diagnostic tests for patients at risk of bleeding
- Identify the therapeutic approaches to the prevention and treatment of bleeding in the following clinical situations: acquired hemophilia, postpartum hemorrhage, severe FVII deficiency, massive bleeding management at the Intensive care unit.

Target Audience
This activity has been designed to meet the educational needs of emergency medicine specialists, intensive care specialists, anesthesiologists, pediatricians, OBGYN specialists, laboratory medicine specialists and other healthcare professionals involved in the management of patients at risk for congenital or acquired coagulopathy.

Course Coordinators

Ali Taher, MD, PhD, FRCP
Professor of Medicine, Hematology & Oncology
Associate Chair – Research, Department of Internal Medicine
Director – Fellowship and Residents Research Program
Faculty of Medicine
American University of Beirut Medical Center
Beirut, Lebanon

Georges Abi Saad, MD, FACS
Professor of Clinical Surgery
General Surgery
Director of Trauma and Critical Care
Director CME Office
American University of Beirut Medical Center
Beirut, Lebanon
Faculty

**Roula Farah, MD, FAAP**
Associate Professor of Pediatric Hematology-Oncology
University of Balamand/Saint-Georges University Hospital
Beirut, Lebanon

**Adlette Inaty, MD**
Associate Professor
Pediatrics
Lebanese American University Medical Center
Head, Pediatric Hematology Oncology
Rafic Hariri University Hospital
Beirut, Lebanon

**Claudia Khayat, MD**
Pediatric - Hematologist
Department of Pediatrics
Hotel-Dieu de France University Hospital
Beirut, Lebanon

**Samar Muwakkit, MD**
Professor of Clinical Specialty
Department of Pediatrics and Adolescent Medicine
American University of Beirut Faculty of Medicine and Medical Center
Beirut, Lebanon
Accreditation Statement

This activity has been planned and implemented in accordance with the policies of the AUBMC CME Office.
This activity complies with the Lebanese Order of Physicians (LOP) Continuing Medical Education guidelines.
Physicians should only claim credit commensurate with the extent of their participation in the activity.

Disclosure of Unlabeled Use

Commercial Support Acknowledgement

This activity is supported by an unrestricted educational grant from Novo Nordisk Pharmaceuticals
Program
Moderator: Prof. Ali Taher

17:00 – 17:30 Registration

Session 1: Haemophilia Management in focus from theory to new treatment options
17:30 – 17:50 The cell-based model of haemostasis
Dr. Claudia Khayat

17:50 – 18:20 A systematic approach to a bleeding patient: interpreting abnormal laboratory tests
Dr. Samar Muwakkit

18:20 – 19:00 New treatment options available in the management of Haemophilia A patient
Dr. Claudia Khayat

19:00 – 19:30 Haemophilia with Inhibitor-A challenging approach
Dr. Adlette Inaty

19:30 – 19:45 Coffee break

Session 2: Rare bleeding disorders in Focus- Updates in treatment algorithm and case discussion
19:45 – 20:05 Diagnostic and Therapeutic Challenges in Acquired Haemophilia
Dr. Ali Taher

20:05 – 20:25 Trauma and ICU bleeds- Crucial role of rFVIIa in reaching haemostasis
Dr. Georges Abi Saad

20:25 – 20:45 Congenital FVII deficiency -
Dr. Roula Farah

20:45 Dinner
