

Call for Inter-faculty Collaborative Research Proposal
Farouk Jabre Biomedical Research Grants

It is my pleasure to announce for the tenth year the Request for Applications (RFA) for collaborative research proposals in biomedical research, an RFA meant to foster inter-faculty multidisciplinary research projects at AUB, and that is possible thanks to the Farouk Jabre Biomedical Research Fund. This RFA is open to all faculty members at AUB provided there is a collaborating faculty member from FM.

Proposals should be new and should not have been previously submitted for intramural funding. The funding amount for each proposal is \$30,000 for one year. The fund is allocated to the collaborating faculty members as deemed necessary based on the work and costs incurred to implement the proposed study.

The deadline for proposal submission is **September 12, 2019**. Proposals can only be submitted through the [Online Submission System](#). **This link will only be available from August 20 - September 12, 2019 at 5:00 pm.**

This RFA illustrates the commitment of the Faculty of Medicine to foster inter-faculty collaborative research activities.

- For administrative and scientific issues, please contact Mrs. Hala Kaidbey at ext. 4915 or email: resdean@aub.edu.lb.
- For online submission-related issues, please contact Mr. Abdullatife Daouk at ext. 4733 or email: ad15@aub.edu.lb.

We hope that this online, paperless system will significantly simplify the submission process and accelerate the processing of research proposals.

You are highly encouraged to apply!

N.B: As a clarification regarding budgeting for the Farouk Jabre Biomedical Research Grant application, please note that no more than 35% of the budget may be used to purchase equipment.

Regards,

Mohamed H. Sayegh, M.D.
