

Anthony Shamoun

Mr. Shamoun started off his career at AUBMC in 2001 as a Registered Nurse in the Adult Medical and Surgical ICU. Through his dedication and diligence, he has been promoted to the position he holds today, that of Chief Clinical Nurse Specialist and Neuroscience Clinical Nurse Specialist.

Over the years, he has helped his department save money—and has saved patients from unnecessary financial burdens and painful procedures—by researching new equipment and recommending them for his department. His exemplary service has been recognized by other units as well.

Anthony is described by his peers and associates as intelligent and proactive, and is recognized for being an effective mentor and articulate leader. He is always ready to provide support and to enable and empower his team to fulfill their utmost potential.

In short, Mr. Shamoun has raised the caliber of care provided by AUBMC and helped optimize patient care. He is a prime example of what an adept and motivated employee can do for his department, our clients, and all of AUB.
