

Bilal El-Iskandarani

Mr. Bilal El-Iskandarani is the Senior Fire Protection Engineer at the Environmental Health, Safety and Risk Management Department at AUB. He joined the team in 2002, and throughout his employment has continuously been proving his dedication in providing excellence in service beyond his call of duty.

It seems that Bilal does not sleep. There were 383 fire emergencies reported from 2010-2012, and Bilal attended to 325 of these situations, that is 85% of these cases. In each and every one of these incidents, Bilal carefully prepares an emergency report and provides recommendations for future preventative action.

Throughout his career, he has been serving AUB with pride in his work and to this day he serves with dedication and full service to excellence.

Mr. El-Iskandarani is always willing and eager to go beyond the call of duty, be it an emergency over the weekend or anytime during his holidays. He is always there, present for our safety.
