

Maher Kassab

IT Manager, Libraries, IT Academic Core Processes and Systems (Campus); 11 years of service.

It is evident that Maher is always excited, enthusiastic and always giving back to AUB, his home away from home. He is well known all over campus to be that guy who stopped by just to extend his services even if he was not directly involved. He continually strives to make a difference and impact to AUB's progress and goes out of his way to come up with initiatives that make AUB a pioneer.
