

Wafa Khansa

Wafa Khansa has been described by her colleagues and supervisors as an admirable, hardworking, and extremely empathetic individual who goes out of her way to serve others.

Wafa has been with AUB since 1986 and is currently the Social Services Manger in the Social Services Department at AUBMC. Ms. Khansa's track record is full of examples which show how she has gone out of her way to help and serve her clients.

Wafa Khansa shows her compassion and dedication to her patients and offers them counseling in the very trying times they pass through. She loves her job and the role she plays as a social services worker. Alongside her work as a social worker she serves on various committees, including the Child Protection Committee, a committee very dear to her heart.

To use the words of one of her previous patients she is a guardian angel always there to listen, to counsel and to serve way beyond the call of duty.
