

Remarks made by

Dr John Waterbury

President

Esther Arslanian

Esther is a very dedicated nurse who has been working at AUBMC for the past *36 years*. She is deeply appreciated by her patients, peers, and the physicians she works with.

Supported and well liked by her peers and colleagues:

Esther is well-known by her peers for her pleasant personality, professionalism, flexibility, superior clinical knowledge, and commitment. She truly has inspired and positively affected her team members as her colleague, Ms. Saada Basbous (RN) said: "I will never forget her talent in taking care of our very sick patients. I am truly proud to work with her". Another colleague (Mrs. Zeina Koussa, RN) described Esther saying: "She spends most of her time at the bedside, sharing with her patients their sorrows and pains". Not only was she highly recommended by her nurse- colleagues, but she also was recommended by four faculty members: three oncologists namely: Dr. Ali Bazerbashi, Dr. Ali Shamseddine, and Dr. Ziad Salem as well as Dr. Ghada Hajj-Fuleihan for her devotion to patient care, professionalism, eagerness to learn, genuine interest in research, dependability and meticulousness.

As a conclusion, Ms. Arslanian combines professionalism, pleasantness, empathy and commitment to high quality patient care.
