

Remarks made by

Dr John Waterbury

President

Rudolph Jabbour

Mr. Jabbour has been employed at AUB since 1963 and has since served in several departments, e.g. Library, Physics, Engineering and Chemistry. Since 1985 he has been working in the Arts & Sciences Dean's office as an Executive Officer. Throughout those years, Rudy has been serving the Students and Faculty members with utmost dedication.

The following statements, extracted from the numerous letters nominating Rudy, provide an idea of the extent to which his 'customers' appreciate his services:

"Suffice it to say that during my long years of service at AUB, I have not come across any employee who is more deserving for recognition than he is"

"Such service, is not only exemplary, but also extremely rare to come by, and should not go without proper acknowledgment"

Commenting on Rudy's helping attitude, a faculty member wrote: "He permanently manifests a willingness to help, and demonstrates an amazing problem solving ability; we literally became addicted to Rudy's help".

Another faculty member said: "I have known Mr. Jabbour as a student at AUB, and since 1997 as a faculty member. I have always been amazed by his knowledge of the rules and regulations and his ability to readily answer our questions. In the few instances where he cannot provide answers on the spot, he never forgets to reply.

Concerning the wide range of support that people expect from Rudy, a faculty member said: "Any time I have any question related to academic and non-academic affairs, research, personnel, exams, holidays, leaves, office furniture, computers, I find myself calling Mr. Jabbour's extension and invariably I get immediately an answer to my questions and intriguing situations or he would call back within few minutes with the right answer. The wonderful thing about him is that he is there to help you in any possible

way, whether directly related or not to his job description...It is a blessing to have him at AUB".
