Instructor:	Germani, Aline
Instructor of Public Health Practice:	Jamal, Diana

Departmental courses are designed to introduce students to the principles and practices in the field of health management and policy, with an emphasis on managerial functioning in healthcare organizations. The Department offers a few undergraduate courses in health administration and contributes to courses catered to major and minor programs.

## Course Description

### **HMPD 204 Introduction to Health Services Administration 3.0; 3 cr.**

This course offers an in-depth examination of the diverse components that form a health system. It provides an opportunity to describe and analyze how provider settings, health care personnel, financial resources, technology, and the government interact to meet and serve the health care needs of populations.

This course includes a “service learning” component through which students will engage with a predetermined organization to identify and address a public health problem. This opportunity will allow students to “share” and “receive” knowledge and expertise leading to enhanced learning among students and benefit to the chosen organization.

### **HMPD 251 Introduction to Health Care Economics 3.0; 3 cr.**

An introduction to the basic principles of microeconomics and the elements necessary to apply these principles to the health care field. This course introduces usable economic tools, especially those that will improve the efficiency of resource allocation and decision-making in the health sector.
